## **Group Members**

[Member 1, Member 2, Member 3, Member 4]

## **Objectives**

[List the objectives from your original proposal and specify whether you would like to remove/modify any of them or add new ones.]

## **Data**

[Specify whether you received access to the dataset and were able to download it for your analyses. Did you face any difficulties in obtaining the data you originally planned to use? If you decided to use different data sources, please explain why.]

## **Approach**

[Specify whether there are any changes to the approach you outlined in the original proposal.]

## **Expected Outputs/Deliverables**

[Any changes to the expected outputs/deliverables.]

## **Preliminary Results**

[List any preliminary results. This might include,  
a) analysis/visualizations of the data,  
b) any results from data preprocessing,  
c) any preliminary ML results you produced]

## **Concerns/Roadblocks**

[Specify any concerns you may have regarding the project and any roadblocks you anticipate in completing the project.]
