

Frame History: The Coral Sunglasses

PRODUCT DESCRIPTION

The majesty of the sea is brought to shore through the striking details of the Coral sunglasses. Bold hexagonal lenses are complemented by bejewelled coral frames in this wearable work of art. Inspired by the ocean's precious and extraordinary life force, the Coral sunglasses are a luxurious symbol of serene strength.

CHRONOLOGY OF CORAL

Inspired by Australia's Great Barrier Reef, the exquisite Coral sunglasses replicate the intricate beauty of its namesake. This eye-catching design captures the best of oceanic magnificence with striking hexagonal lenses and lavish frosted gold frames, embellished with over 400 handset Swarovski crystals. It blurs the lines between sculpture and eyewear, allowing you to revel in the marvels of nature with each wear.

A Sublime Life Force

The Coral sunglasses capture the essence of one of the planet's most fascinating life forms. These ancient underwater forests, known for their vibrant colours and inimitable organic shapes, are a vital life force to the ocean and its various wonders. Coral acts as a sanctuary to millions of sea creatures while offering peaceful protection from storms and coastal erosion. The world's most famous coral formation, the Great Barrier Reef in Queensland, Australia, serves as the blueprint of this captivating design.

Natural Opulence

The treasures of the sea and the earth are combined in these breathtaking frames. Coral motifs are handcrafted in frosted 24 karat gold with over 400 handset Swarovski crystals to create the most lifelike replica of the structure's distinctive texture. Gently sloped hexagonal frames represent the diversity of shapes found within the Great Barrier Reef. Handcrafted with a premium grade titanium foundation, the Coral sunglasses offer resplendence that will stand the test of time.

Profound Formations

Meticulously formed over millennia, coral reminds us that the most beautiful objects take time to establish. The Coral sunglasses undergo a precise evolution over the course of 10 months to ensure supreme quality. From the design's initial sketch by Andre Montana to the thorough assembly by our Japanese artisans, each step is thoughtfully carried out to blend time-honoured craftsmanship traditions with innovative techniques.

Protection & Preservation

The Coral sunglasses weren't solely created as a physical representation of the Great Barrier Reef's beauty. Andre Montana is passionate about the preservation of this incredible formation, which homes of thousands of species of marine wildlife. To truly honour this oceanic marvel, a percentage of each sale of Coral Sunglasses will go towards the protection of the Great Barrier Reef.

Outcome: The Andre Montana Coral Sunglasses were [worn by Beyonce during her Cowboy Carter Tour](#).
