Dear ==<>==

Thank you so much for sending your music to us, it is extremely important for us to be able to support the Canadian music industry; however, we are moving towards using a digital distribution system designed for the campus and community radio sector.

This system is known as the [!earshot Digital Distribution System](#) (!earshot Distro) is an online database that makes getting music to Canadian campus and community radio stations easier, simpler, and cheaper. Once uploaded into the database, campus and community radio stations can search, review, and download music to be broadcast within their local communities (and on podcast, a first in this country) across Canada.

When signing up, please use the referral code below as it will provide you with a 25% discount on the first 10 purchases, and a 5% discount on every purchase after that.

==Referral Code Here==

Making songs active in the !eDDS only costs $7/song for an EP/single (1 - 7 songs), or a flat $50 for an album/compilation (8 - 20 songs) before any discounts. Once the songs become active they are available to all radio stations that have accounts in the !eDDS (as seen at https://earshot-distro.ca/?page_id=220)

For more information please refer to [earshot-distro.ca](#), contact us, or the project coordinator at edds@ncra.ca.

Sincerely,

<>
