

Julie Swift -- Witness at the Border

Admin

While Witness at the Border can't maintain a presence on the ground in Brownsville and Matamoros right now, we have found ways to witness remotely by advocating for asylum seekers in MPP, tracking and reporting ICE Deportation flights and promoting organizations along the Texas border who help those stranded in Mexico under the cruel and inhumane MPP policy. These organizations have been there or support those on the ground there. They remain dedicated to providing food, supplies, services, education, medical support, dignity and kindness. It truly takes a village and this is a beautiful village. Help if you can, in whatever way you can. Thank you!
