SOC 206 Week 1: Project Log Assignment

Purpose

In this project log, you will collect all materials related to the initial poster, discussion facilitation, and final project. Use the project log as a place where your group gathers together the textbook material, discussion posts, and ideas to deepen your understanding of the topic you selected.

Instructions

Part 1
Make sure you have picked a group and topic. See Week 1: Assignment - Group Final Project: Pick a group. Pick a topic for details.

Part 2
- Download the project log document that corresponds to your topic of interest from the Project Logs list on the Project Overview page.
- The log has three activities per week:
    - Individual tasks that you are expected to complete on your own
    - Group tasks that require you get together with your group members
    - Critical corner task to contribute to textbook updates (extra credit)
- Complete the tasks on a separate Word document, Google doc, or another collaborative tool
- One member of the team submits the project log to this assignment page

Tip! Try out the collaborations tool to create a group Google Doc for your group to collaborate in (see Canvas Support Resources).

Details

- Due: Sunday by 11:59 pm
- Points possible: 20
- Submission: Submit the group glossary to this Canvas assignment.

Grading Criteria

The project log earns you 20 points a week and will be graded as complete, partial, incomplete, or missing (late)

- Complete project log answers all the questions and follows all the rules and earns full credit: 20 points
- Partial has minor mistakes and earns: 16-19 points
- Incomplete misses crucial pieces and earns: 1-15 points
- Missing earns: zero points
