Course Details-

TASER®, through the TASER Training Academy and in conjunction with the FBI National Academy Association, has put together a one-day program specifically designed for law enforcement executives and government risk managers, legal counsels and medical advisors and electronic control device (ECD) subject matter experts. Topics covered include an overview of TASER ECDs, use-of-force legal and policy issues, medical information and risk mitigation.

Attendees will receive substantial factual information as to how TASER Electronic Control Devices incapacitate individuals, how these ECDs fit into law enforcement use-of-force deployment strategies, training considerations, various policy recommendations (including IACP, PERF and others), recent court decisions what medical studies are being performed and the findings and the effects of TASER ECDs on liability exposures and on reducing officers' and suspects' injuries
