

nocturne

time pass in silence
silence pass the time
i love the darkness
and darkness loves the night
it creeps into the corners of the world
like a whisper of deceit
a lullaby for the slumbering
the quiet call of freedom for me

i was born in the lightless hours
the rest of the world asleep
i am nocturnal
the night is eternal serenity
eternal serenity

night brings the quiet
quiet brings the calm
calm brings the peace of mind
from the evening 'til the dawn
all the stars in the midnight sky
suggest my possibilities
the night is bigger than the day
the quiet call of freedom for me

i was born in the lightless hours
the rest of the world asleep
i am nocturnal
the night is eternal serenity
eternal serenity
