

**Manipulated Photo**  
**By Charlee Lawson**  
**Title: Promise to Myself**

I used my iPhone to take the picture of my hands by setting it on a bookshelf and using the timer for 3 seconds, after I took the photo I went into an app called Picsart where I put a graphic design filter on it and picked each color carefully and made it seem like it was painted, afterwards I saved it to my iPhone photos and used the iPhone edits to control the brightness and turned the brightness up, then I saved the edits and saved the image again.
