Gear UP	GEAR UP Highlights: <ul style="list-style-type: none"> • We are continuing to provide push-in tutors to the algebra and pre-algebra classes, as well as walk-in tutoring sessions during advisory and lunch. • GEAR UP is now providing a Project Based Credit Recovery Biology class for students who failed biology in the fall. There are currently 12 students enrolled, and 10 of the 12 are passing. (The 2 who are failing have missed more than 50% of classes this semester). • We are continuing to assist students with scholarships and FAFSA by individual appointment and regular workshops (next workshop on Feb 2). • On December 7, 33 seniors attended the "Cookies & Credit Scores" workshop. We are grateful to Nusenda for sending their employees to talk with our students and provide an engaging workshop! • On December 14, 2022, we took 7 students to explore the Institute of American Indian Arts and tour the NM State Capital. (picture attached) • We have 16 middle school students signed up to attend the Middle School Girls STEM Conference on February 23-24
