

Holiday Cards

BPS students in the Adult Transition Program are making holiday cards to sell! All cards are handmade by students in the Cognitive Impairment program. They are available for \$1 which includes an envelope.

Funds will be used for our community outings and cooking supplies to support our life skills curriculum to aid students in developing social, independent living, community access, and money skills.

All cards have been created and designed by our students. Below are samples of cards that have been made by Groves high school students. However, the actual cards you receive may vary. Submit a request for a special holiday card (e.g. Christmas, Hanukkah, New Year).

Thank you for supporting our class and students!
