

We are excited to have so many of you back racing with us!

As federal, state, and local authorities continue to adjust COVID-19 regulations, we want to share our expectations for safety protocols at our upcoming race. Please know that while our protocols may differ from what your home country, state, or local county regulations dictate, we are guided at high level by the health orders for the City and County of San Francisco and have incorporated feedback from what our members are already doing with their own teams. We ask that you respect these protocols in support of doing what's best for the dragon boat community.

Vaccination Status

In alignment with the latest health orders from city and county health authorities, we highly encourage and recommend all paddlers be fully vaccinated.

Masks

We highly encourage and recommend all paddlers wear face coverings (face masks) at all times. That said, we REQUIRE face coverings to be worn during the following times:

- At marshaling, through dock and boat loading - masks can be removed once your boat pushes off from the dock
- Upon docking, masks on until your team has exited the dock area and is heading back to your tent site in Paddler's Village

It is the team's responsibility to ensure your paddlers bring the appropriate masks so that they will be allowed into the marshaling area and dock - please plan accordingly.

Health Check

Team captains are expected to verify that none of their paddlers have tested positive for COVID-19, are showing symptoms of COVID-19, or have recently been exposed to someone who tested positive for COVID-19. If a paddler does not meet the criteria of this health check, they are expected to stay home.

If you have any questions, please reach out to operations@cdba.org. Thank you in advance for your understanding and support in keeping our race as safe as possible for our entire dragon boat community!
