

## **Forum Maintenance Meeting Agenda - Date TBD**

### **Are Day-to-day tasks being accomplished?**

- Moderation
  - Are mods active?
- Tech and server maintenance
  - Did Jack find backup?
- Are the Council Directors active?

### **What goals did we set at launch, and have we accomplished them?**

### **What new goals should we have going forward?**

- Any requests for new features to implement?

### **Forum-wide election: most preferred single-winner voting system**

- Which systems should be nominated as candidates?
- Which systems should be used to conduct the election?
- Deliverable question: Is there a Condorcet winner?

### **Questions regarding the forum: Trends and activity**

- How have consistent contributors been using the forum? Have they had any success in addressing their concerns, questions and agendas?

### **Visualization: Map Space of Voting Systems**

- Can we use software such as t-SNE to create a 2- or 3-dimensional visualization of the space of voting systems?

### **External relations**

- How are relations with other prominent voting theory platforms (FairVote, EqualVote, reddit\*)
- Do we have good relations with any significant political apparatus?
- Can we organize to produce and share other kinds of content like panel discussions, Q&As, etc?

### **Topics Proposed by Waugh**

- Discuss Andy Dienes' proposal to simplify the hierarchy of subjects. I am not against this and neither is anyone else who commented about it on the forum.

- Consider asking Dienes and Rob Brown whether they are interested in (re)joining the council and/or becoming moderators.

- Consider whether Jack should be blamed or forgiven for having given Rob Brown keys to the server without council approval.

- Proposal to transfer physical control of the domain [votingtheory.org](http://votingtheory.org) to the [equal.vote](http://equal.vote) organization.
