1. Overview

This add-on allows you to sell products in packages or sell additional products coming with the main one - and all this without using the functionality of the CS-Cart options.

Allows you to create 2 types of packages:

An attached product package is a specific set of products that can be purchased in addition to or instead of the main product (then it will act as a container for the products included in the package). Maximizes checks by offering compatible products (packages) or services (installation or assembly, customization, additional warranty, etc.).

The main product can not be included into the attached product package, i.e. cell phone with headphones and case in the package. In this example a package is attached to a cell phone as a main product.

The attached package can include both obligatory products, which cannot be deleted when added to the cart, and optional, the client can buy the package without them.

You can attach several packages to one product.

You can flexibly configure discounts for the entire package or for individual items in it.

Separate package - allows you to create a global variant of product combinations. This package will be displayed on the pages of all products included in it. All items in the package are required to purchase for getting a discount. The product can be included in several separate packages at the same time.

1.1 Support

The add-on was developed by Cart-Power, a CS-Cart official partner and developer. If you need any assistance in installing and configuring the add-on or need it's modification, please contact us through the [helpdesk](#) customer support system.

1.2 Compatibility

The functionality described in the document works for CS-Cart versions 4.10.1 and higher.

1.3 Buy Now

Version 1.0 from 11 Aug 2021

2. Add-on Management

2.1 Add-on Installation

To simplify the installation, configuration and upgrade of our add-ons, we have developed a special service add-on: **Cart-Power Add-ons Manager**. [Download the Cart-Power: Add-ons Manager](#) and follow the [installation instructions](#).

Once you install it, you will be able to:

1. [Check the List of the Add-ons Purchased for Your Domain](#)
2. [Install Add-ons](#)
3. [Turn on/off Add-ons](#)
4. [Find the Add-on Docs](#)
5. [Set up Add-ons](#)
6. [Upgrade Add-ons](#)
 - a. [Via Add-on Manager](#)
 - b. [Via the Upgrade Center](#)
 - c. [Manual Upgrade \(Add-on Reinstallation\)](#)
7. [Find out Add-on Version Information](#)
8. [Check the Status of the Upgrade Subscription](#)

If you have any issues installing or activating the add-on, please contact us: sales@cart-power.com

3. Add-on Settings

Add-on settings are available in several places.

1. **Add-ons > Manage add-ons > Cart-Power: Product packages**
2. **Add-ons > Cart-Power: Add-ons > Product packages**
3. **Products > Product packages > [Package_name]**
4. **Products > Products > [Product_name] > tab Product packages**

3.1. General Settings

Go to **Add-ons > Manage add-ons > Cart-Power: Product packages > Settings:**

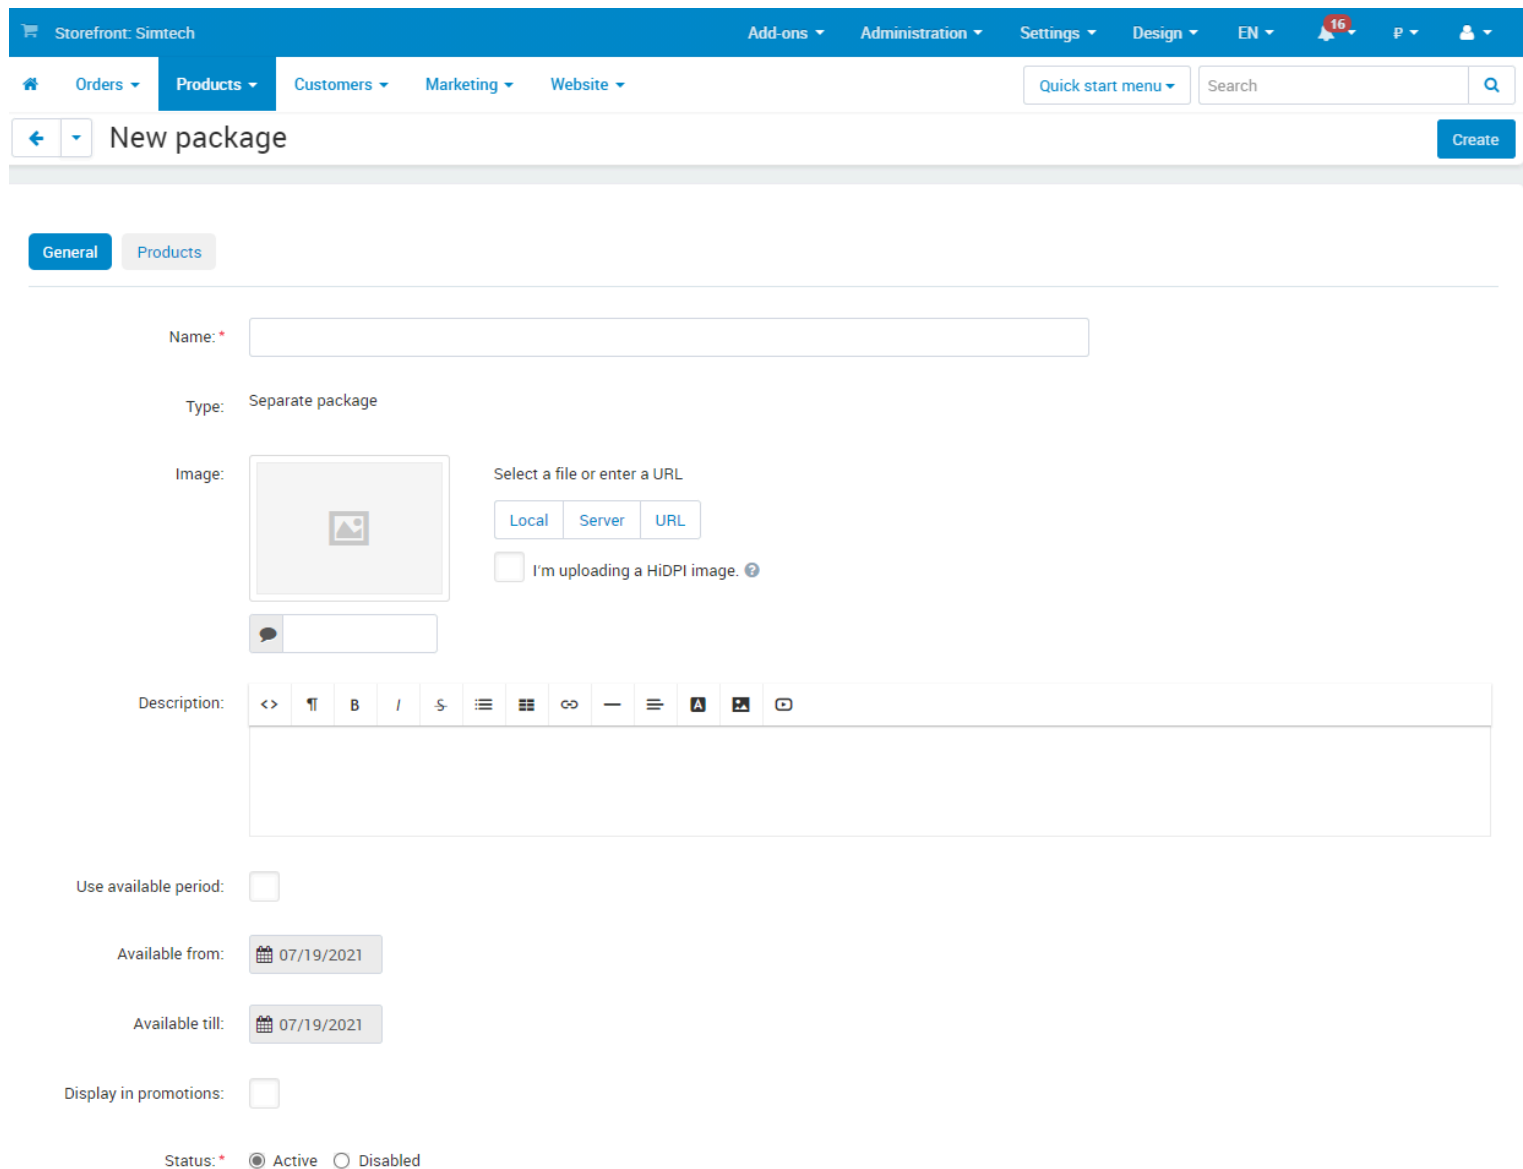

The screenshot displays the 'Cart-Power: Product packages' settings page. At the top, there's a navigation bar with 'Storefront: Simtech' and various menu items like 'Add-ons', 'Administration', 'Settings', 'Design', 'EN', and a notification bell. Below this is a secondary navigation bar with 'Orders', 'Products', 'Customers', 'Marketing', and 'Website'. The main content area has a breadcrumb trail 'Cart-Power: Product packages' and a 'Save' button. A green notification bar at the top of the settings area says 'Notice Your changes have been saved.' The settings are organized into tabs: 'General', 'Settings' (active), and 'Information'. Under the 'Settings' tab, there are three main sections: 'License key' with an input field, 'Disable on delete' with a checked checkbox, and 'Group package items in invoices' with a checked checkbox. A sidebar on the right shows a 'Status' toggle set to 'ON', 'Favorites' with a star icon, and 'Version' as '1.0'.

- **License key** - license number from the order details page on store.cart-power.com.
- **Disable on delete** - disable package when included product was deleted.
- **Group package items in invoice** - items from one package will be grouped. For correct display of packages in Email notifications, you need to add a variable to email documents, see the [corresponding section](#).

4. Adding a Separate Package of Products

A separate package of products is similar to the Buy together add-on. One product can be included in an unlimited number of packages.

In **Products > Product packages** create a new package by clicking the **Add separate package** button.

The screenshot shows the 'New package' form in the Simtech storefront. The top navigation bar includes 'Storefront: Simtech', 'Add-ons', 'Administration', 'Settings', 'Design', 'EN', and a notification bell with 16 alerts. The main navigation bar has 'Orders', 'Products' (selected), 'Customers', 'Marketing', and 'Website'. A search bar and a 'Quick start menu' are also present. The 'New package' form has a 'Create' button. The form is divided into two tabs: 'General' (selected) and 'Products'. The 'General' tab contains the following fields:

- Name:** A required text field.
- Type:** Set to 'Separate package'.
- Image:** A field with a placeholder image and a 'Select a file or enter a URL' button. Below the button are 'Local', 'Server', and 'URL' options. A checkbox labeled 'I'm uploading a HiDPI image.' is also present.
- Description:** A rich text editor with a toolbar containing icons for bold, italic, underline, link, unlink, list, table, code, and image.
- Use available period:** A checkbox.
- Available from:** A date picker set to 07/19/2021.
- Available till:** A date picker set to 07/19/2021.
- Display in promotions:** A checkbox.
- Status:** A required field with radio buttons for 'Active' (selected) and 'Disabled'.

The tab **General** contains the following settings:

- **Name** - a field containing the name of the package. Required field.
- **Image** - you can download the image for your package.
- **Description** - here you can add a description of your package.

- **Use available period** - selection of the period of time during which this package will be valid.
- **Display in promotions** - allows you to display this package on the store page with promotions.

The feature showing packages on the promo page does not work in stores with the **UniTheme** and **Youpi theme**!

- **Status** - turning this package on and off. Required field.

The tab **Products** contains information about the products included in this package:

The screenshot shows the 'New package' interface in the Cart Power system. The top navigation bar includes 'Storefront: Simtech' and various menu items like 'Add-ons', 'Administration', 'Settings', 'Design', 'EN', and a notification bell with '16'. Below this, a secondary navigation bar shows 'Orders', 'Products' (selected), 'Customers', 'Marketing', and 'Website'. A 'Quick start menu' and a search bar are also present. The main heading is 'New package' with a 'Create' button. Below the heading, there are two tabs: 'General' and 'Products' (selected). Under the 'Products' tab, there is a '+ Add products' button. Below this is a table with the following columns: Name, Quantity, Link, Price, Discount, Value, Discounted price, and Settings. The table currently shows 'No items defined'. At the bottom right, there is a 'Recalculate' button, and below it, the text 'Total cost: 0.00 P' and 'Price for all: 0.00 P'. At the very bottom right, there is a 'Share discount (P):' input field and an 'Apply' button.

Name	Quantity	Link	Price	Discount	Value	Discounted price	Settings
No items defined							

By clicking on the **Add products** button you will open a list of all products in the store. Use the search bar and add the required product. For items with options, you can choose a specific combination of options to add to the package:

5. Adding an Attached Product Package

An attached product package is a specific set of products that can be purchased in addition to or instead of the main product (then it will act as a container for the products included). Maximizes checks by offering compatible products (packages) and services (installation, configuration, special delivery, verification, etc.). These can be additional accessories, spare parts, packaging, services.

The attached package can include both mandatory products, which cannot be deleted when added to the cart, and optional, the client can buy the package without them.

Nesting is not allowed. You cannot add products with already attached packages!

Go to **Products > Product packages** and create a new package by clicking the **Add attached package** button:

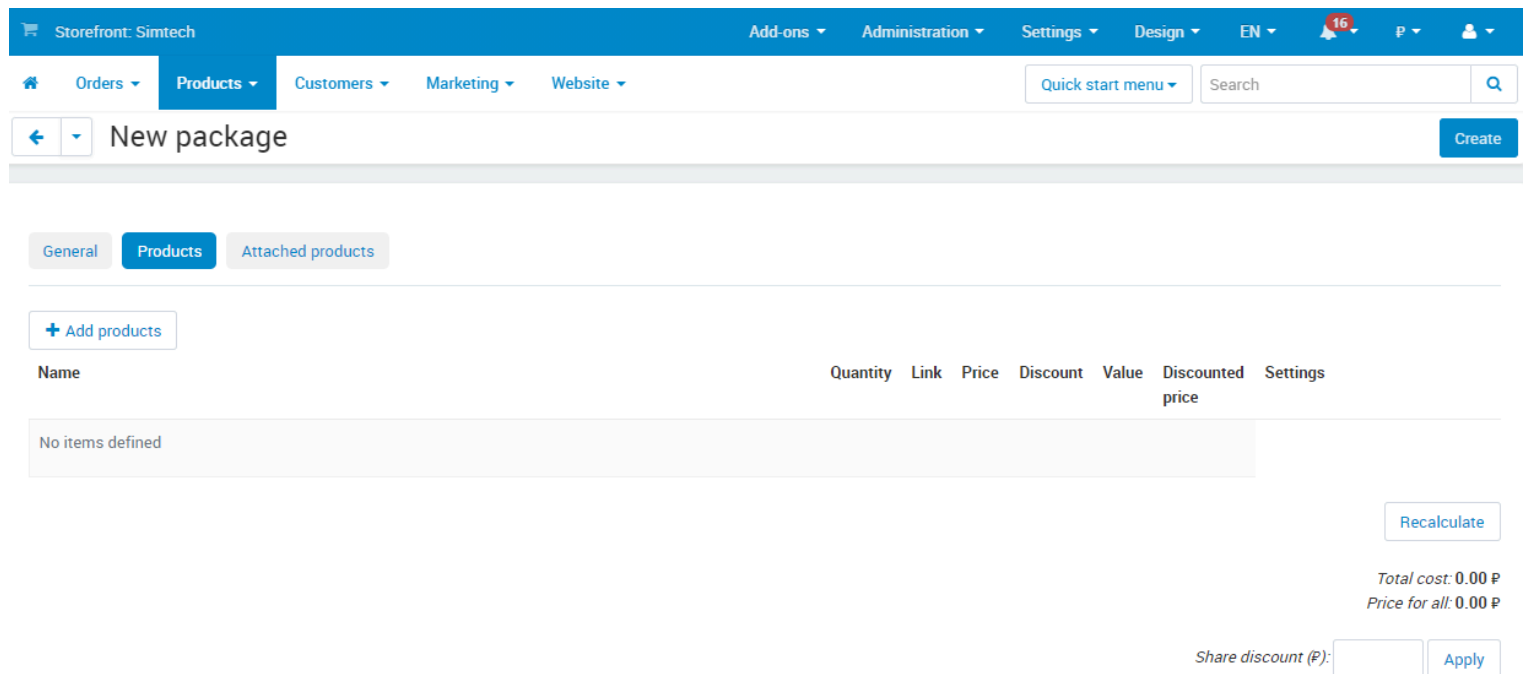

The screenshot shows the 'New package' form in the Simtech storefront administration interface. The top navigation bar includes 'Storefront: Simtech' and various menu items like 'Add-ons', 'Administration', 'Settings', 'Design', 'EN', and a notification bell with '16'. Below this, a secondary navigation bar shows 'Orders', 'Products' (selected), 'Customers', 'Marketing', and 'Website'. A search bar and a 'Quick start menu' are also present. The main heading is 'New package' with a 'Create' button. The form has three tabs: 'General' (selected), 'Products', and 'Attached products'. The 'General' tab contains the following fields:

- Name:** A required text field.
- Type:** A dropdown menu set to 'Attached package'.
- Image:** A section for selecting an image. It includes a 'Select a file or enter a URL' prompt, buttons for 'Local', 'Server', and 'URL', and a checkbox for 'I'm uploading a HiDPI image'.
- Description:** A rich text editor with a toolbar containing icons for bold, italic, underline, link, unlink, list, and image.
- Use available period:** A checkbox.
- Available from:** A date picker set to '07/20/2021'.
- Available till:** A date picker set to '07/20/2021'.
- Status:** A required field with radio buttons for 'Active' (selected) and 'Disabled'.

The tab **General** contains the following settings:

- **Name** - a field containing the name of the package. Required field.
- **Image** - you can download the image for your package.
- **Description** - here you can add a description of your package.
- **Use available period** - selection of the period of time during which this package will be valid.
- **Status** - turning this package on and off. Required field.

The tab **Products** contains information about the products included in this package:

You can skip setting the options of the product and immediately put it in the cart, in which case the basic version will be selected, without options.

- **Ignore modifiers** - ignores modifiers on options.
- **Hidden** - makes this product in a package invisible to the customer on the item page. The product will be added to the cart as part of the package. This function can be useful if you add free packaging to the product.

- **Show link** - makes it possible to go to the page of the product in this package when you click on it. Disabling this function can be useful when adding packaging for a product or some service to the package.
- **Required** - this function makes it impossible for the customer to refuse from this product in the package.
- **Selected** - this product will be selected by default in the package, but customer can cancel this selection by unchecking the product. The setting does not work if the product is marked as Required (see setting above).
- **Show qty** - displaying the quantity of this product in a package (relevant when creating similar sets with different quantities of one product).
- **Recalculate** button - calculates the total cost of the package and its components.
- **Share discount** - another way to apply a discount on a product's package. Allows you to independently enter the total amount of the discount without additional calculations within the package.

5.1 Attaching the Package to the Product

Go to **Products > Products > [Product_Name] > tab Product packages** and find the **Add packages** button:

The screenshot shows the Cart Power admin interface. At the top, there's a blue navigation bar with 'Storefront: Simtech' and various menu items like 'Add-ons', 'Administration', 'Settings', 'Design', 'EN', and a notification bell with '16'. Below this is a secondary navigation bar with 'Orders', 'Products', 'Customers', 'Marketing', and 'Website'. The 'Products' tab is active, and the breadcrumb path is '2010 TOUR STAFF Bag 10\". A red box highlights the 'Product packages' tab in the sub-navigation bar. Below the tabs, there's a 'Package settings' section with a 'Package type' dropdown set to 'None'. At the bottom right, there's a '+ Add packages' button, which is pointed to by a red arrow.

If this button is not displayed, first select a **Package type** and click the **Save** button.

The package settings allow you to select the **type of package (with or without the main product)**:

- **Include the main product** - the main product will also be added to the cart with the products in the package.
- **Not include the main product** - the main product will not be added to the cart with the products in the package. This option can be useful for the customer in case of purchasing a set of spare parts or accessories for the product he already has, or you can use the main product as a container for the products included in the package.
- **Package price for catalog** - it will be used for product filters. This price will display on product lists (main product price + package price)
- **Package list price for catalog** - this price will display on product lists (main product list price + package list price)

If several sets are attached to the product, then a select box appears for selecting a set.

You can see all attached to the package products in it's settings tab **Attached products**:

The screenshot shows the Simtech storefront administration interface. The top navigation bar includes 'Storefront: Simtech', 'Add-ons', 'Administration', 'Settings', 'Design', 'EN', and a notification bell with '16'. Below this, a secondary navigation bar has 'Orders', 'Products', 'Customers', 'Marketing', and 'Website'. The 'Products' tab is active, and the page title is 'Editing package: Apples 2'. On the left, there are tabs for 'General', 'Products', and 'Attached products', with 'Attached products' highlighted by a red box. The main content area is titled 'Product' and lists two items: 'Toshiba 47TL515U 47" Class 1080P 3D LED HD TV' and '2010 TOUR STAFF Bag 10"'. A red arrow points to the second item.

7. FAQ

7.1 The Work of the Add-on With the Product Variations

Packages for variations are configured from the card of the main product of the variation, tab **Product packages**:

The screenshot shows the 'Product packages' tab in the Simtech storefront administration interface. The top navigation bar includes 'Storefront: Simtech', 'Add-ons', 'Administration', 'Settings', 'Design', 'EN', and a notification bell with '16'. The main navigation bar has 'Orders', 'Products', 'Customers', 'Marketing', and 'Website'. The breadcrumb trail shows 'T-shirt, Color: White'. The 'Product packages' tab is selected in the sub-navigation bar. The 'Package settings' section shows 'Packages mode for variations' set to 'From main product' and 'Package type' set to 'None'.

Packages mode for variations:

- **From main product** - product package settings for variations will copy the settings of the main product.
- **Own for each variation** - settings for product packages do not depend on the main product and are set separately.

Package type:

- **Include the main product** - the main product will also be added to the cart with the products in the set.
- **Not include the main product** - the main product will not be added to the cart with the products in the package. This option can be useful for the customer in case of purchasing a set of spare parts or accessories for the product he already has.

By default, the **Product packages** tab in the variation card of any product has the following content:

Storefront: Simtech

Add-onsAdministrationSettingsDesignEN16P

OrdersProductsCustomersMarketingWebsiteQuick start menuSearch

T-shirt, Color: White

Save

LANGUAGE: English

GeneralVariationsShipping propertiesQuantity discountsSubscribersProduct packages

Attached packages will be taken from the parent product of the variations. If you need to enable packages separately for variations, change the setting on the [parent product](#). Tab "Product packages"

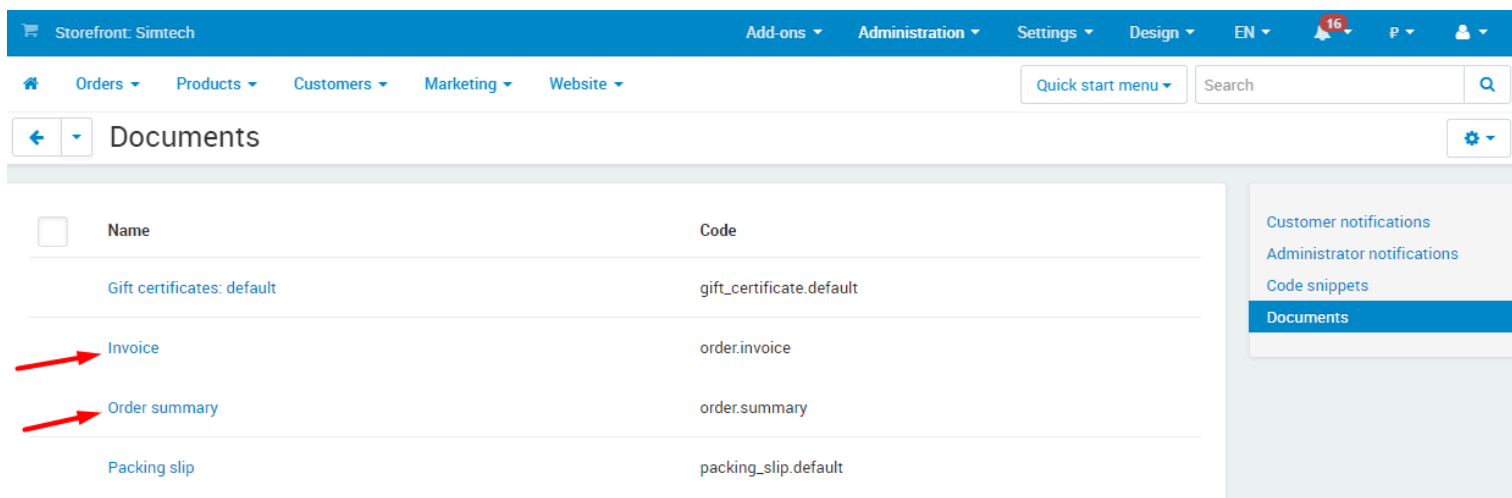

With this product

No data found

In order to have access to the settings of this tab, it is necessary to change the setting **Packages mode for variations** of the main product of this variation.

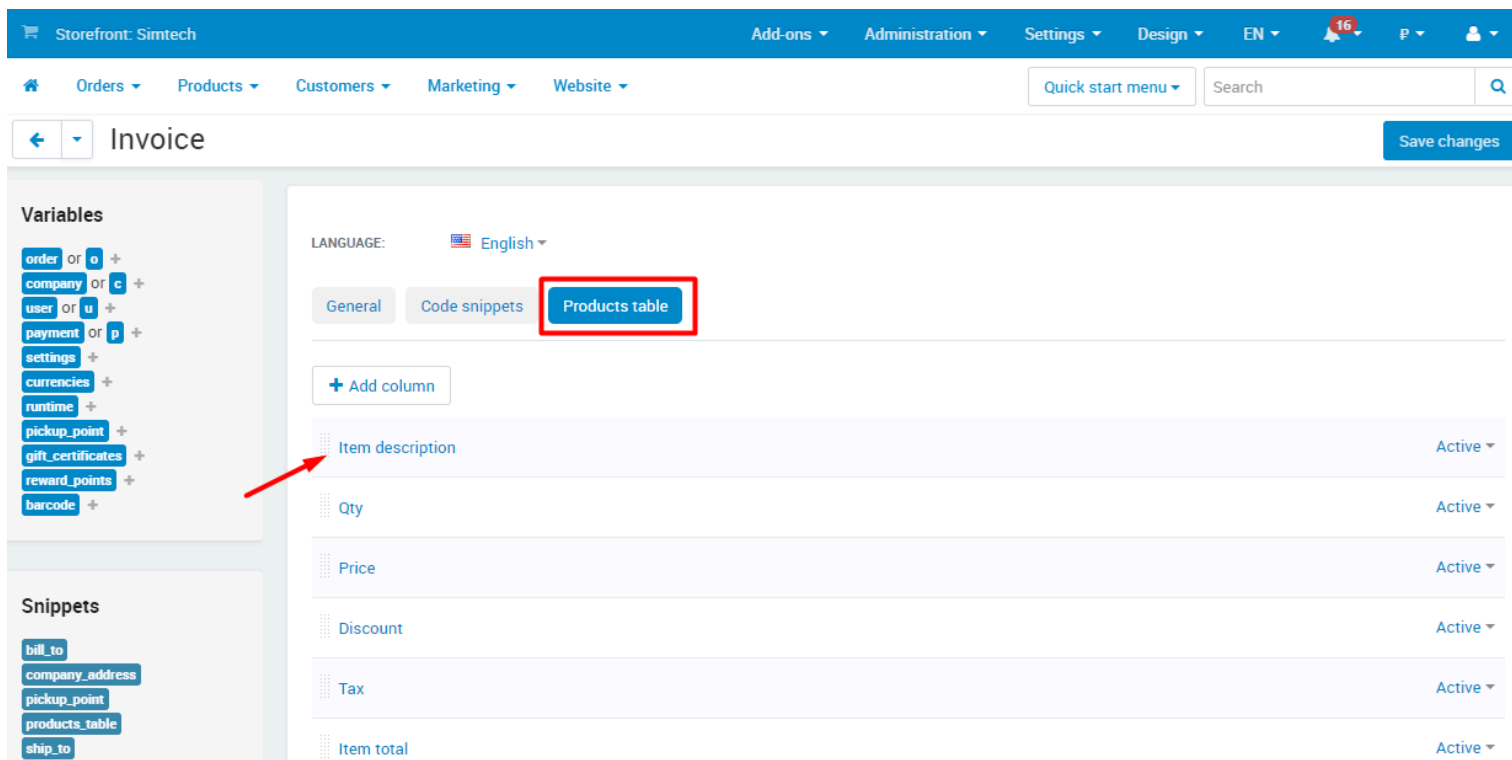

7.2. Displaying the Product Included in the Package in the Email Notifications

To display the product Included in the package of a product package in letters, you need to make some changes in the documents. You can find them in **Administration > Notifications > Documents**, we need the **Invoice** and **Order Summary**.

Name	Code
Gift certificates: default	gift_certificate.default
Invoice	order.invoice
Order summary	order.summary
Packing slip	packing_slip.default

Choose the document, find the tab **Products Table**, field **Item Description**:

You can group products in invoices using the **Group package items in invoices** [setting](#) in the general settings of the add-on.

The default invoice looks like a list of individual products included in the package:

	ITEM DESCRIPTION	QTY	PRICE	DISCOUNT	TAX	ITEM TOTAL
	<u>TOSHIBA 47TL515U 47" CLASS 1080P 3D LED HD TV</u> L00102FQ97	1	47 999.60	-	-	47 999.60
	<u>APPLE® - IPAD® WITH RETINA® DISPLAY WI-FI - 64GB - BLACK</u> E0240Y27BE OPTIONS: 3G CONNECTIVITY: NO , MEMORY CAPACITY: 16GB	2	19 960.00	-	-	39 920.00
	<u>APPLE IPOD CLASSIC BLACK</u> G0242JXP9R	1	9 960.00	-	-	9 960.00
Subtotal						97 879.60
НДС 20% 20% INCLUDED						16 313.27

After editing the document the same invoice looks like this:

ITEM DESCRIPTION		QTY	PRICE	DISCOUNT	TAX	ITEM TOTAL
<u>TOSHIBA 47TL515U 47" CLASS 1080P 3D LED HD TV</u>						
L00102FQ97						
PRODUCTS IN PACKAGE						
PRODUCT	QUANTITY	PRICE				
	<u>TOSHIBA 47TL515U 47" CLASS 1080P 3D LED HD TV</u>	1	47 999.60			
			1	97 879.60	-	- 97 879.60
	<u>APPLE IPOD CLASSIC BLACK</u>	1	9 960.00			
	<u>APPLE® - IPAD® WITH RETINA® DISPLAY WI-FI - 64GB - BLACK</u>	2	19 960.00			
	OPTIONS: 3G CONNECTIVITY: NO; MEMORY CAPACITY: 16GB;					
Subtotal						97 879.60
HДС 20% 20% INCLUDED						16 313.27

7.3. Displaying the Package Content on the Shipments Creating Page

The shipments creating page displays information about the product packages - they are separated by black lines and the products have an indication of the package which they belong to:

New shipment
