# Policy # 5 EMERGENCIES

Never Panic, evaluate situation in order to take appropriate measures. All phones should have emergency phone numbers posted.

#### **HEALTH EMERGENCIES**

Staff Members should exercise caution when administering first aid of even a minor nature because of the potential danger of a lawsuit. However, the sick or injured patron should be made comfortable and protected from needless disturbance until medical help can be obtained. Since each case is unique, staff members should use their own judgment to do what is prudent and reasonable.

The rescue squad / police should be called immediately in the vent of a serious problem. The staff person in charge of the Library at the time should also be notified immediately. In the event of an accident or injury like a stroke, heart attack, coma, etc., an accident report must be completed as soon as possible. At least, get the name of the injured person for follow up. Accident forms will be available at the desk.

If a member of this public library is injured in any way in library property, an incident form must be filled out immediately and turned into the Director. An incident form should be filled out even if the person appears unharmed. In case of serious injury or medical emergency, the ambulance should be called at once. At no time should staff attempt to provide first aid. No medication, including aspirin, should ever be dispensed to the public.

#### **BOMB THREATS**

Keep the caller on the line as long as possible. Ask the caller to repeat the message and try to write down every word spoken by the person.

If the caller does not indicate the location of the bomb or the time of possible detonation, ASK FOR THIS INFORMATION.

Pay particular attention to peculiar background noises such as motors running, background music and any other sounds, which may indicate from where call is coming.

Listen closely to the voice (mal / female), voice quality (calm / excited), accents and speech impediments.

Immediately after the caller hangs up, call the police and notify the director. The police will want to talk firsthand with the person who received the call.
