

Letter of Intent

Count me in! AIxDESIGN Academy: for Young Creatives

I am writing to express my interest in collaborating with AIxDESIGN on developing critical AI literacy learning materials for young people in my local community.

I am motivated by the urgent need for young people to develop critical thinking about AI systems that increasingly shape their world. AIxDESIGN's approach of using creative, participant-led methods to explore AI's real impacts aligns perfectly with my educational philosophy and my students' needs for authentic, hands-on learning experiences. I believe this collaboration will create a learning platform that empowers both youth educators and young people to engage thoughtfully with AI technology while building the kind of inclusive, critical AI literacy community that our students deserve.

What I bring to this collaboration:

- **[Your role] at [institution, City, Country]**
- I have been working with **[describe young people]** for **[years]**
- I will promote the program with **[describe young people]** via **[specific programs, partnerships, locations, tactics]**

Sincerely,

NAME
