

I am currently seeking full time employment as a Senior-to-Principal role, I am mainly looking for roles involving heavy use of JavaScript programming. I have more than 18 years experience in the web field in many aspects of web development. This used to be longer, but I fail to see the usefulness of it. No I will not take your HackerRank or whatever coding test.

Technologies

Currently Programming In: ES6 (React), JavaScript, Node.js, Typescript

Markup Language: HTML, CSS, XML, XSLT

Database: MySQL, MongoDB, Oracle

Server Platforms: Linux (Mint, Debian, RedHat, CentOS, Ubuntu, SUSE), OpenBSD, Solaris, OS X Server
