The Modern Classrooms Project: "Question Policy" Example
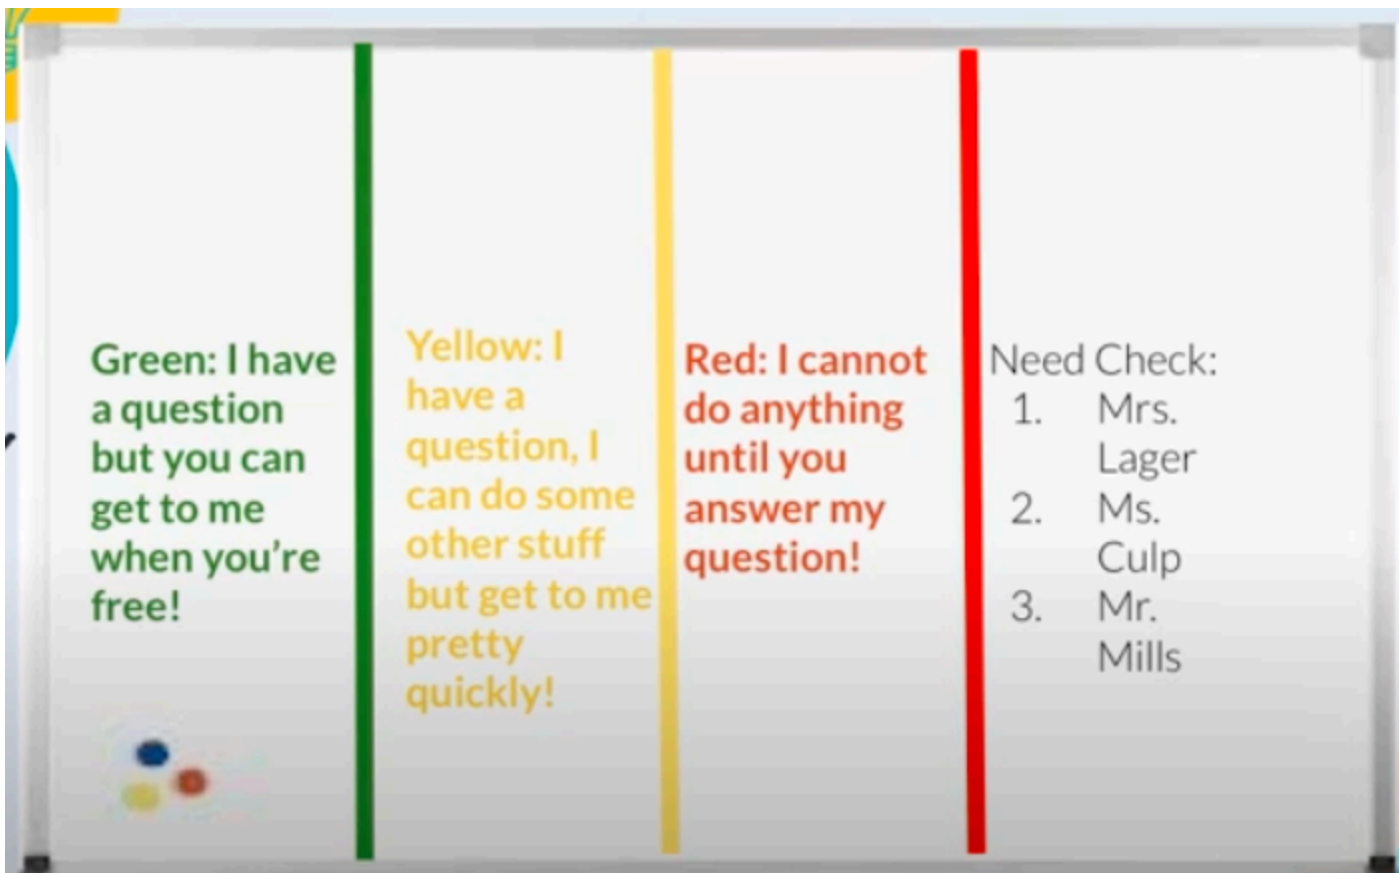

★ Always displayed on board.
★ "Need Check" = I need my work reviewed/graded.
★ Helps students evaluate "how necessary" their question is.
★ Helps with classroom management - If a teacher is working with a group, they can always glance at the board to see if another student is stuck.
★ Easy for other students to see who needs help. If someone is way ahead of pace you can also make them "in charge" of the question board.

Green: I have a question but you can get to me when you're free!

Yellow: I have a question, I can do some other stuff but get to me pretty quickly!

Red: I cannot do anything until you answer my question!

Need Check:
1. Mrs. Lager
2. Ms. Culp
3. Mr. Mills

(in the actual classroom you can just put these boxes in the corner of the board so it doesn't use up all your space).
