

Be Gay, Do Witchcraft - Some Last Notes

Hello and welcome!

Before you leave for the campaign site, we have prepared this “limbo” document. It features some last informations you must know. Please read everything very carefully.

First of all, we want to remind you of the price: this is a *pay what you want* starting from \$15. This means:

You donate $X = \$15$? You get a copy of the zine

You donate $X > \$15$? You get a copy of the zine, thank you for your extra!

You donate $X < \$15$? We appreciate the donation of course, but you won't receive a copy of the zine.

Then let's talk about the redemption process.

We are using a platform that puts money straightly in Trevor Project's wallet. We are not going to see a dollar in any moment of the process.

This was done to assure transparency. BUT it has an issue: the platform doesn't have a system to deliver personalized automated emails. Speaking simpler: **you will not get the zine immediately after the moment of purchase.**

We are going to reply to everyone individually by hand. We have created a small team to cover as many time zones as possible, but we ask you to be patient.

We are going to use <https://wettransfer.com/> to transfer the files so expect an email from them.

We are also receiving some anonymous donations - keep in mind that if you donate as anonymous **we can't actually see your email** and forward the zine to you, so please don't donate as anonymous if your intention is to redeem a copy of the zine! If instead your intention was just to donate without receiving the zine, thank you!!

If we haven't reached you after 24 hours, and just that, please send an email to begaydowitchcraft.lumity@gmail.com

Title: My copy has not been redeemed

Text: The name you have donated with (ex Name: Carlotta Agogliati)

Attachments: After your purchase you should have received an email by Trevor Project featuring a thank you for your donation. Please screen the recipe and attach the file.

The zine will be available until July 17th 2021.

One last thing, you will receive two files of the zine: one at 144ppi and one at 300ppi. The 144 one works smoother, but the 300 has, of course, better quality. Your choice in which to choose!

Buy a zine-Donate a Zine

Donating 15+ usd will grant a copy for yourself, 30+ usd one for yourself and a donated one for one of the recipients, 45+ one for yourself and two donated zines and so on. Giving extras is of course extremely appreciated, but anything under an extra 15 usd won't grant another gifted copy. For more info, please check [here](#)

That all being said, here's the link for the campaign

Please, please, *please* don't skip this document and don't go straight to the site, it is very important. Thank you so much for your time!
