

What is the Byron High School Character and Citizenship Award?

This recognition is awarded once per quarter to one male and one female junior or senior student who participates in Byron activities. The individual is nominated by an advisor, teacher, or coach based on the student's notable character traits and their ability to uphold positive values and morals. Furthermore this honor aligns with the school's mission in regards to "Profile Of A Graduate". Recipients will exude the traits of character, citizenship, collaboration, community, creativity, and critical thinking.

In short, the nominating committee is looking for exemplary students (who are involved with activities) within high school and the Byron Community. The nominees are voted on by all teachers, advisors and coaches to declare a winning representative for that respected quarter.
