## **Funnel Explained:**

### **Front End: Measurement Worksheets Generator (\$47 @ 50% Commission)**

Sales Page Link:

<https://measurementworksheetsgenerator.com/fe7e2w6/>

The front end product consists of the following features...

- Create measurement practice books easily
- Point and click system to create high end worksheets
- Add rows and columns on the fly to create as many or as little measurement problems per page
- Upload up to 10 of your own icons to create worksheets that are unique to you
- Intuitive drag and drop dashboard for easy handling of the measurement puzzles
- Premium worksheets to identify big vs small items

- Premium worksheets to identify tall vs short items
- Premium worksheets to identify long vs short items
- Premium worksheets to identify more vs less items
- Premium worksheets to identify heavy vs light items
- Worksheets that help reorder images based on size, mass, length etc
- Enhance the engagement with activities involving identifying the correct items and circling it
- Make learning fun with worksheets that involve estimation, drawing and coloring of the correct items
- Get access to 50 high quality built in icons library created for you by our inhouse design team that can be used to give a different dimension to your worksheets
- Multiple difficulty level controls built into the app so you can design your worksheets with complete flexibility
- Regeneration option allows you to change the measurement problems on the fly
- Use the 1-CLICK page clone option to create a brand new page with new measurement problems while retaining the formatting used in the master page
- Easy shuffle option allows you to move pages around in order to change the sequence of the page in the manuscript
- Choose from multiple trim sizes based on your book needs
- Multiple page numbering styles for enhanced flexibility in page design

- Show and hide margins for KDP compatible layout designs
- Smart Solution Connect technology automatically creates and connects solutions for the measurement math problems where applicable on the fly
- Show and hide solution option makes it super simple to preview solutions on active page
- Optimized layout for solution pages where applicable so you can minimize your production cost
- Add titles, descriptions and instructions using the super flexible drag and drop text editor
- 900+ font options to choose from
- Download a single measurement worksheet or a whole practice workbook in 1-CLICK
- Advanced design features for answer blocks let you introduce blank space, lines, boxes and circles for the kids to write the answers in
- Ability to customize the answer blocks even further by providing boxes with solid lines, dotted lines and dashed lines
- Download files in multiple formats including PDF, PNG and JPG
- Import files to Affinity, Photoshop, Illustrator, Powerpoint and Canva easily.
- Detailed training included
- Up to 100 downloads per month
- A dedicated support team that simply put, cares about your success

- Commercial use rights included

**Upgrade 1: Measurement Worksheets Generator PRO**  
**(\$67 @ 50% Commission)**

OTOI Sales Page:

<https://measurementworksheetsgenerator.com/pro6h5sl/>

The first upgrade product or OTOI consists of the following features...

- Unlimited downloads per month
- Access to brand new layout designs for premium looking worksheets
- Unrestricted icon uploads feature that allows you to create unique books at an unprecedented speed and scale
- Download the Powerpoint (PPTX) source files for future use
- Unlimited color palette options for the text blocks
- Easy image upload functionality allows you to upload your own images
- Bulk clone option lets you choose a master file and then create multiple pages from that in just 3-CLICKS

- Bulk delete option lets you clear your entire canvas in one swift click of the mouse
- Bulk shuffle option lets you shuffle all your pages in one go
- Commercial use rights included

## **Upgrade 2: Measurement Worksheets Generator**

### **PREMIUM (\$97 @ 50% Commission)**

OTO2 Sales Page:

<https://measurementworksheetsgenerator.com/premium3f8h6/>

The second upgrade product or OTO2 consists of the following features...

- Converting temperature from degree centigrade to degree fahrenheit and vice versa
- Converting temperature word problems

- Converting length in US standards. This involves converting between units like inches, feet, yards and miles
- Converting length in US standards word problems
- Converting mass in US standards. This involves converting between units like pounds, ounces, tons and stones
- Converting mass in US standards word problems
- Converting volume in US standards. This involves converting between units like gallons, fluid ounces, quarts, pints and more
- Converting volume in US standards word problems
- Converting length in SI standards. This involves converting between units like millimeter, centimeter, meter, kilometer and so on
- Converting length in SI standards word problems
- Converting mass in SI standards. This involves converting between units like milligram, centigram, gram, kilogram and so on
- Converting mass in SI standards word problems
- Converting volume in SI standards. This involves converting between units like milliliter, liter, deciliter, kiloliter and so on
- Converting volume in SI standards word problems
- Converting length from US standards to SI standards and vice versa. You can create worksheets converting from units like inches, feet, yards and miles to units like centimeter, meter and kilometer. For example a question

could be like converting the given yards to meters and vice versa.

- Converting length between US and SI standards word problems
- Converting mass from US standards to SI standards and vice versa. You can create worksheets converting from units like pounds, ounces and tons to units like gram, kilogram and milligram. For example a question could be like converting the given pounds to kilograms and vice versa.
- Converting mass between US and SI standards word problems
- Converting volume from US standards to SI standards and vice versa. You can create worksheets converting from units like gallons, pints and quarts to units like liter, kiloliter and milliliter. For example a question could be like converting the given gallons to liters and vice versa.
- Converting volume between US and SI standards word problems
- **Founding members and early access to five brand new premium software apps in the measurement niche that we plan to release in 2024.**
- Product #1: Programmed illustrations for measuring temperature. Create a variety of stunning worksheets that involve reading, drawing and comparing temperature
- Product #2: Programmed illustrations for measuring weight. Exquisitely crafted worksheets help you create

see-saw like illustrations with objects on either end. You can also create worksheets involving weighing machines

- Product #3: Programmed illustrations for measuring volume. Use container illustrations designed in a way that you can edit the volume of the content right inside of the app
- Product #4: Programmed illustrations for measuring length. Use the creative layouts provided in the app to create worksheets that would be unbelievably beautiful and engaging
- Product #5: Programmed illustrations for more vs less worksheets. Imagine you creating some premium worksheets with content smartly designed where you can control the quantity of items shown. These worksheets will make learning how to compare the number of items in each set fun
- Each of the five SAAS apps will be released in 2024. Founding members would get early access and would save big time. Each of these apps would be sold in a funnel of their own for a total price of \$147 to \$197 minimum. Founding members would get access to all the software features in future when we release them without paying a dollar more.
- Commercial use rights

1st Prize: \$500

2nd Prize: \$200

3rd Prize: \$100

### **Contest Terms:**

\*For the main contest the affiliate winning a particular position must have earned affiliate commission equal to or greater than the prize money. If that's not the case then the prize money will be distributed on a pro-rata basis.

\*The speed contest will be open for the duration of the launch as notified above with the start and end dates. Any affiliate partners that meet the sales targets first will be rewarded with the prize money. The winners will be announced within 48 hours of the launch close or earlier.

\*The opening and closing contests will be on top of the other contests. The winners will be announced within 48 hours of the launch close or earlier.

\*The launch day end will be marked by the end of business as per the W+ platform.

\*Buying through one's own link is strictly against the rules and will automatically disqualify the affiliate from being a part of the contest.

\*Use of negative marketing that tarnishes the brand is not allowed. For example you may not use words like product name + scam in your emails or articles or review videos to promote the product.

\*The contests are based on individuals only. Teams are not allowed.

\*The final decision related to the contest will be made by Niranjan

## **Actual buyer testimonials**

*Niranjan I Purchased the whole funnel. You and your team again over delivered on an awesome product. Props to you and your team.*

- *Charlie*

*You guys have outdone yourself with these new products! They are truly amazing!*

- *Janet*

*Amazing software, incredible value! Can;t wait to start making books. This team is the best in the business and wonderful to work with.*

- *Diane*

*Niranjan, your enthusiasm is contagious. Your webinars are great fun and always worth attending. If I had to use one word to describe both the webinar and the software, that word would be VALUE. The webinars answer every question a potential buyer might have, and the software is beyond fantastic. It's yet another "job well done" for your team. You go above and beyond every time, and this launch is no exception. THANK YOU!*

- Shirley

*As soon as the button went active I sped through the sales pages. I was probably one of the first dozen or so who bought the complete package. I see the value, as I also purchased your Math Gen offer... same value. Tremendous! I just need to get busy on making these books!!*

- Randy

*Thank you so much for creating this terrific product! I already knew which affiliate's offer I wanted and I grabbed the funnel fast! I need to finish some products I am currently creating and then I will be able to dig in totally to all of these. 😁 I also got some ideas on how I can make my books different. 😁*

*I hope everyone has a great weekend!*

- Mary

*Hi Niranjana*

*I could not attend any of the webinars this time, but I knew that the apps would be of great value for kids education content creators and I wanted to have a full package of measurement programs that would help me to create good content for kids' math niche . That's it.*

- *Pronoti*

*Hi Niranjan, I was on the webinar this morning and bought the whole funnel. (Wow, do you have a lot of energy. GREAT JOB!!!) I'm reaching out to you because I guess I missed the last offering for the images. Can you send me a link for that?*

- *Mark*

*The entire funnel provided great value & having access to your upcoming products at a discounted price was an obvious choice. Thank you for the opportunity.*

- *Brenda*

*Great products, great long term plans - great work, looking forward to seeing it evolve into 2024*

- *Debbie*
