Telepractice

Support Kit

This year, Telepractice has become a staple for many schools, districts, and groups. It's not always easy to jump into online engagement with AAC communicators, but with some FREE tools and supports it can be a big success.

Teletherapy Session Notes Doc	Open this Google doc, then make your own copy to enter details of your sessions. (to copy: open "file" at the top of the screen then select "make a copy")
Setting S.M.A.R.T. goals for AAC	This form will help you set and track AAC related goals for your communicator & team
Graphic: Physical Essentials for Teletherapy	Use this graphic to remind & support those doing telepractice of important physical essentials in online AAC support
Graphic: Do's & Don'ts of AAC Teletherapy	Post reminders of important Do's & Don'ts when participating in telepractice with an AAC user
Graphic: Teletherapy Supports	Great suggestions (compiled from professionals) on what to do BEFORE you start a teletherapy session
AAC Tips & Tools for Telepractice with CoughDrop	Features, functions, and resources to help anyone using CoughDrop for teletherapy
