RE: Utah Case Study Uncovers Billion Dollar State and Federal Roles In Decades of Nationwide Child Trafficking Being Disguised As “Custody Issues,”

“THE WHAT, WHERE, WHY, HOW, WHEN AND WHO OF UTAH’S ROLE IN COURTGATE”

WHAT

“It’s happening right now,” she says quietly. “Right now some little girl is being dropped off in the parking lot of a motel. There are four girls holed up in a hotel next to a McDonalds. It’s not only when we think about it. It is happening all the time.” Tears stream down her face.

This quote is from an article titled “After Two Decades Undercover, She’s Ready to Tell the Real Story of Human Trafficking.”

The article appeared in the January 2024 issue of Rolling Stone Magazine.

In the article, a female former FBI agent works to correct cinematic and sensationalized myths about human trafficking, emphasizing that domestic human trafficking is deeply homegrown. The vast majority involving American minors from the U.S. foster care system rather than foreign kidnappings.

From the article: “roughly 199,000” American children are sexually exploited each year and “that more than 75% had lived in foster care or adoptive care.” That “75%” of 199,000 translates to 150,000 American children.

Most states, including Utah, do not allow transparent access to foster care records to determine how many children go missing from foster care. Other states do. Because of this, there is a growing number of reports from certain states indicating that in those states, thousands of children have been going missing from foster care every year. In the other less transparent states, including Utah, the number remains unknown.

However, even with 150,000 American children in foster care being sexually exploited, a huge

number of them being sex trafficked and another huge number of them going missing every year, the Rolling Stone article did not reveal that other parts of the FBI refuse to acknowledge that a huge number of these children are being targeted for sexual exploitation and easily disguised as “custody issues” long before they are actually taken, put into different forms of “foster care” and then trafficked from “foster care.”

The article also did not reveal that it has all stayed hidden for so long because there is an initial, primary layer to the targeting, taking and trafficking: this is that as needed, parents of a huge number of the most targeted children are being removed, silenced or fatally eliminated first, one-by-one. This is because without one or both parents to protect their children, the children can be easily taken, disguised, trafficked and it all stays hidden.

How can a nation survive numbers this high? The truth is, it can’t.

WHERE

Because of the previously hidden mechanisms involved, kids in foster care from every

socioeconomic group are “being trafficked out of every hotel, from the seediest motel to the fanciest Ritz-Carlton, at every time of day [and by every socioeconomic group, educational background and position.]”

As part of this Utah case study, going back to at least 2009, the darkest roots have led to Utah where a rotating, annual list averaging 12,000 - 15,000 Utah children’s names disguised as “custody issues” remains hidden by deceptive state authorities year after year.

Even though this case study has proven in indisputable ways that since 2009 Courtgate has been completely off the rails in Utah from the governor’s office down, there are indications that Courtgate first started in California in the 1960’s and over the past 65 years since it has expanded into more than 20 U.S. states as well as Canada, Australia, the U.K. and other countries.

However, when it comes to reporting about sexual exploitation of children in foster care in Utah, pseudo-public foster care organizations including Utah Foster Care refuse to talk about any of this. Nationwide adoption organizations including the

Dave Thomas Foundation also refuse to talk about any of this. Pseudo-public legal associations including Utah State Bar and The American Bar Association also refuse to talk about any of this.

Because of Courtgate, globally, the number of targeted children and targeted parents that have been fatally targeted in different stages is estimated to be in the many millions. The majority of fatally targeted children and fatally targeted parents estimated to be in the U.S. due to the duration and depth of Courtgate in the U.S. compared to those other countries combined with scapegoating at the federal level of the U.S. government.

Other reports indicate that across the U.S. every year, the 500,000 - 600,000 American children are listed as being rotated through some form of "foster care."

WHY

"It's a lot easier to just continue to live in a lie than believe that you were lied to."

In Utah, this hidden list of 12,000 - 15,000 children's names disguised as "custody issues" exists because, since at least 2009 when Gary Herbert was governor, deceptive parts of the State

of Utah have been putting revenue over safety as part of deceptively taking as much as possible from a $5.83 billion dollar federal subsidy.

The subsidy's original congressional purpose was to help states facilitate foster care and adoptions.

The subsidy has existed since 1980 and has been referred to with different monikers depending on who is doing the talking or writing and when. This includes the subsidy first being titled "The Adoption Assistance and Child Welfare Act of 1980" as part of "Title IV-E" before it was changed in 1997 to "Title IV-E: The Adoption and Safe Families Act of 1997." Parts of the federal government online refer to it as "Title IV-E Foster Care."

Unfortunately, because of scapegoating at the federal level, there is little oversight of "Title IV-E Foster Care." Because of that, every child's name that deceptive parts of a state can add to the state's "Title IV-E Foster Care" roster allows those deceptive parts of that state to steal hundreds of thousands of dollars from "Title IV-E Foster Care" in the name of the child, year-after-year, without the child ever knowing regardless of what is really

happening to the child or what has already happened to the child.

It should be noted that in addition to “Title IV-E Foster Care,” there are roughly 1,696 other congressionally created subsidies for states adding up to more than $1.7 trillion dollars annually and that on average, most states lean on federal subsidies for about 30% of their income.

However, estimates indicate that during some of these years since 2009 Utah’s “income” from federal subsidies was much higher, sometimes averaging over 40%.

This while the deceptive parts of the State of Utah publicly touted the state in the media as being the most fiscally well managed state in the nation.

However, in addition to this, because of scapegoating and lack of oversight, in recent years the State of Utah has also been able to accumulate tens of billions of dollars in surplus without having to notify the federal government or needy citizens of all ages.

This includes that in 2025 it was quietly estimated by a well-intending part of the Utah State Legislature that Utah’s surplus was somewhere

between “$35 billion and $100 billion.” This while the surplus of some states is a miniscule fraction of that, sometimes as small as 1/1000th.

It should also be noted that since 2023 Utah’s current State Auditor as well as Utah’s previous State Auditor refused requests to report on any funds coming into the state from the $5.83 billion dollar “Title IV-E Foster Care” subsidy regardless of the name “the state” might know the subsidy by.

HOW

“Sometimes she couldn’t help but feel that all the conspiracies and misconceptions weren’t just a distraction from the truth of trafficking but rather some sick attempt to let society off the hook for trying to solve the much more [impossible] problems at trafficking’s root.”

Going back to 2009, from the governor’s office down in Utah, deceptive parts of the State of Utah have made counterintuitive “appointments” of counterintuitive individuals to critical roles among the rotating, part-time, 104 member Utah State Legislature as well as other “executive offices” and “administrative offices” as part of taking as much as

possible from “Title IV-E Foster Care” and keeping it hidden.

Those deceptive parts of the Utah State Legislature have then gone on to radicalize or scapegoat a majority of the Utah State Legislature members in passing deceptive state laws and proliferating “False Aid Deceptively Designed To Distract, Detour and Defeat with Death (FAD)” enabling the State of Utah, it’s counties and it’s cities to do this in terrorizing, nation destroying, profiteering ways while keeping it all hidden.

This includes that around 2009 deceptive parts of the State of Utah, apparently blinded by greed, were “duped” into expanding a hidden, unvetted courtroom partnership with a highly controversial, global, private association known as AFCCNET.ORG.

The membership of AFCCNET.ORG includes more than 6,000 judicial, legal and psychological professionals across 20 states (including Utah) as well as Canada, Australia, the U.K. and other countries.

The history of AFCCNET.ORG includes counterintuitive “global conferences” going back to

1996 that are superficially referred to as their "annual world congress on family law and the rights of children and youth." The list of global luminaries invited to be "Chair" of their "world congress" includes at least one pre-internet, scapegoated, First Lady in 1997. The same year that her husband as a scapegoated, pre-internet U.S. president expanded "The Adoption Assistance and Child Welfare Act of 1980" to be "The Adoption and Safe Families Act of 1997" with the inclusion of "bonuses" to "states" for "adoptions." As "Chair" of AFCCNET.ORG's "world congress" the counterintuitive title of the First Lady's speech that year was "Taking It Over." A counterintuitive, pre-internet name for a speech to a global organization that claims to be all about "family law and the rights of children and youth" and that does everything "in the best interests of the child" no matter how terrorizing, nation destroying and profiteering the numbers continue to be year after year.

Because of the unvetted courtroom partnership since at least 2009 in the State of Utah, "judges," "family law attorneys," "psychologists" and dozens

more have all secretly been members of AFCCNET.ORG without anyone knowing. With the swipe of a pen or mention of one of their names, they are deceptively allowed to operate in thousands of the same cases targeting the same children and parents. All of them also demanding impossible fortunes in payment that they will also take in one way or another without rhyme or reason and all in exchange for no work done while also colluding to lock out all other well-intending judicial, legal and psychological professionals.

Because the deceptive and duped state authorities in Utah look the other way at what AFCCNET.ORG members do as part of the deceptive and duped state authorities taking as much as possible from “Title IV-E Foster Care” with every child’s name that the AFCCNET.ORG members deceptively add to “the list” as “custody issues,” the AFCCNET.ORG members have learned that in thousands upon thousands of cases, they can collude and game the system in their own terrorizing, nation destroying and profiteering ways. The Utah case study reveals that they do this with

unthinkable malice, without any regard for life and that they will stop at nothing to keep it all hidden.

However, as bad as this all is, this still isn't the worst of it: Because of this greed fueled reciprocating radicalization between the deceptive and duped state authorities and AFCCNET.ORG members and those that collude with them, child traffickers can hide among the ranks in any of these roles whether they are members of AFCCNET.ORG or not.

Because of this, unfortunately for the U.S.A., not just Utah, any role that can be used to target, take and traffic children can be easily radicalized whether that role is "judicial," "legal," "psychological," "political," "executive," "administrative," "educational" and beyond.

It is by deceptively gaming these same "courtroom" systems that AFCCNET.ORG members and those that collude with them at federal, state and local levels deceptively eliminate parents of the most targeted children first, one-by-one, to keep it all hidden.

By unlawfully eliminating parents first, they deceptively eliminate the first layer of protection for

the children. With the most targeted children disguised as “custody issues” or “foster children” no one asks any questions and no one goes to save the children.

To eliminate parents of the most targeted children first, the AFCCNET.ORG members and those that collude with them maliciously use their roles to create “shadow dockets.”

As needed, each shadow docket is more terrorizing than the previous shadow docket until the shadow dockets create the illusion of “custody issues” and remove or silence the parent targeted to be eliminated first.

This includes but is not limited to AFCCNET.ORG members and those that collude with them creating false charges, forgeries and fabricated psychological evaluations.

Deceptively weaponizing once well intending tools such as “Protective Orders” is often the first shadow docket.

However, unfortunately for the U.S.A. not just Utah, these shadow dockets don’t just remove the targeted parent, it ruins the targeted parent while

also alienating the targeted child from the targeted parent.

These shadow dockets happen verbally or with the simple swipe of a pen without any real work being done, without any evidence ever being presented and without the targeted child ever getting to say “goodbye” to the targeted parent. One day the targeted child is deceptively told that they can no longer see the targeted parent, that they can no longer talk to the targeted parent and that they can no longer know anything about the targeted parent. The shadow dockets simply erase the targeted parent from existence.

To bait the targeted parent into more fatal terrors as part of different ways of keeping it all hidden, the targeted parent is also suddenly told the same thing about the targeted child with additional threats made to the targeted parent for attempting to contact, visit or see the targeted child “without the court’s permission” even though it was all done by shadow docket and without leaving a lawful papertrail of why the AFCCNET.ORG controlled “court” is doing what it is doing.

Too often, the other parent goes along with this baiting because they have been threatened to do so —not realizing that they too will be removed, silenced or eliminated by the AFCCNET.ORG controlled “court” as needed.

However, when the parent targeted for elimination first isn’t eliminated quickly enough, the targeted child remains stalled in the stages. This can go on for years without any communication allowed between the targeted child and the targeted parent. Unfortunately for the U.S.A., not just Utah, this also ruins the targeted child.

When the parent targeted for elimination first isn’t eliminated quickly enough, AFCCNET.ORG members and those that collude with them do not hesitate to use radicalized parts of local police departments to unlawfully and fatally swat a targeted parent.

For many reasons, this is not hard to do, especially when there are not just radicalized, but ritualistic parts of local police departments that already engage in rituals known as “blooding.” This is where they target, bait and kill an innocent person

while disguising it as an elaborately staged “lawful police encounter.”

There is indisputable proof that this too has happened in Utah on several occasions since 2009. A public link to video proof of a disguised killing by radicalized “police officers” of the West Valley City Police Department in 2019 and since covered up by deceptive Utah authorities including the office of the Salt Lake County District Attorney is available for those willing to see it.

When radicalized “police officers” fail to eliminate a targeted parent, they stop at nothing to cover it up.

To do this, they unlawfully imprison the targeted parent and leave them there.

Once in jail, depending on how much the targeted parent knows about what is happening, it is then easier for colluding, radicalized “jailers” and others to then hold the targeted parent hostage while threatening the targeted parent into silence in exchange for release or as needed, attempting to silencing the targeted parent with more fatal schemes. This might easily include killing the

targeted parent in jail and deceptively disguising the killing as “a suicide.”

If that fails to eliminate a targeted parent, depending on how much a targeted parent knows, AFCCNET.ORG members and those that collude with them may deceptively release the targeted parent so they can continue the cycle of attempting to fatally eliminate the targeted parent with more shadow dockets and more swatting.

Unfortunately for the U.S.A. not just Utah, as needed they may weaponize other once well-intending tools known as “conservatorships” to unlawfully fear monger and threaten the targeted child and targeted parent from ever contacting each other again — if they both manage to survive long enough.

That AFCCNET.ORG members also maliciously collude across state lines only thickens their terrorizing, nation destroying, profiteering plots in sickening ways.

Because of all this and more, these schemes of removing, silencing or eliminating one or both parents first work often enough that the deceptive illusions of those “custody issues” are created in

hundreds of thousands of instigated “cases,” the deck is stacked with hundreds of thousands of the most targeted children from all socioeconomic groups and those “75%” or 150,000 children are easily sexually exploited, sex trafficked and worse from foster care every year without anyone knowing and without anyone going to rescue them.

Because the death of a targeted child also helps keep it all hidden, perhaps you can imagine what the ultimate goal for the proliferators really is and why there aren’t millions of survivors raising the alarm about what happened to them and their parents.

Depending on what position you are in to stop the trafficking or to proliferate the trafficking, these numbers mean that 1 in 4 children sent by judicial, legal and psychological “professionals” to foster care in the U.S. *have been* sexually exploited but there is finally something you can do about it *OR* that 1 in 4 children sent by judicial, legal and psychological “professionals” to foster care in the U.S. *can* be sexually exploited and it can continue all being kept hidden.

But, when it comes to AFCCNET.ORG members and those that collude with them it doesn't stop there…

The Utah case study has also revealed that another reason why this has been happening for so long is because all locally staffed "state offices" in Utah from the governor's office down as well as all locally staffed "federal offices" in Utah including the offices of the FBI, U.S. Marshals, U.S. Attorney, Secret Service and Homeland Security also continue to look the other way.

This may be because, in addition to AFCCNET.ORG members and those that collude with them gaming the system in these terrorizing, nation destroying, profiteering ways, for more than two decades AFCCNET.ORG has also secretly controlled an app known as "Our Family Wizard" that AFCCNET.ORG members and those that collude with them have unlawfully forced more than one million parents across the U.S. and beyond to pay hundreds of dollars a year for.

The app is nothing special and does nothing more than free apps already do. This includes that until 2023, the app didn't even offer "video calling,"

something that has been available for free through mainstream methods since 2010.

By unlawfully forcing more than one million parents to pay hundreds of dollars a year for “Our Family Wizard,” AFCCNET.ORG members and those that collude with them have been able to artificially create a “billion dollar Wall Street value” for the app.

In 2020, AFCCNET.ORG also quietly involved the services of a billion dollar, global Wall Street firm known as “Spectrum Equity.” If Spectrum Equity deceptively proliferated an IPO on Wall Street for the app, it would allow AFCCNET.ORG members and those that collude with them to steal billions more.

However, in addition to reporting this all to every possible office or agency from the office of the U.S. President down, over the past two years, since discovering the deceptions regarding “Our Family Wizard” in the fall of 2024, the father in the Utah case study has also filed three reports to the U.S. Securities and Exchange Commission but those three reports have also gone ignored.

During that time he also shared the reports with the legal department at Spectrum Equity —this may be why although it is now October 2026, the deceptive billion dollar IPO for “Our Family Wizard” effectively stealing billions of dollars from the public has still not happened.

While there are more than a dozen deceptive “state laws” that allow deceptive parts of the State of Utah and it’s counties and cities to proliferate Courtgate, an example of “FAD” from 2026 includes a bill known as SB 304.

While counterintuitively acknowledging that “false charges” have been happening in Utah’s “family law” courtrooms it leaves out more than 100 terrorizing, nation destroying and profiteering consequences of those false charges.

While SB 304 bears the name of two members of the Utah State Legislature, one state senator from Orem, Utah and one state representative from West Valley City, Utah, the bill was left superficially “passed” but perpetually stalled.

Additionally, when dozens of Utah law firms were contacted for their plans regarding the windfall that SB 304 would bring to them as they did their

part in “righting the wrongs” of the terrorizing, nation destroying and profiteering false charges that many of them played a role in, not one responded.

WHEN

“People would rather stick their head in the sand than address the real problem…it’s like a gift to these predators.”

It was nine years ago in October of 2017 when the targeted Utah father in this case study was first targeted for removal by the first of what would become many shadow dockets. This was when his two daughters were eight-years old and one-year-old.

At that time however he had never heard of AFCCNET.ORG and like millions of other targeted parents before him he did not know what was really happening to him and his two daughters. It would be six more years of shadow dockets before he did.

After that happened, during the Summer of 2023, it would only be a matter of weeks before he began publicly using himself “as bait” in the desperate hopes of uncovering the truth about “child trafficking disguised as custody issues.”

Since then, he has done that in indisputable ways.

WHO

“I’d been missing for over a year, nobody was looking for me.”

In Utah, from the current governor’s office down and going back to at least 2009, hundreds of role players have been named in “commissive” and “omissive” stages as it relates to unlawfully removing, silencing and eliminating this targeted Utah father and keeping it all hidden.

This includes an ongoing statewide refusal from the governor’s office down to acknowledge the hidden list of 12,000 - 15,000 targeted Utah children’s names disguised as “custody issues” as well as the refusal by the current State Auditor and previous State Auditor to acknowledge any “Title IV-E Foster Care” money coming into the state.

This is while the “State of Utah” continues to spend hundreds of millions of other dollars on counterintuitive projects superficially disguised as something known as “Utah’s M.I.D.A.”

To help others stay constructive rather than immediately pointing fingers another way the targeted Utah father in this case study has publicly described the “commissive” and “omissive” proliferators from the governor’s office down is as: “scapegoats scapegoating scapegoats.”

However, the chain-of-events specifically involving his targeted daughters and him going back those nine years includes specific “commissive” role players colluding in specific layers and stages to remove, silence and fatally eliminate him as the parent targeted for elimination first as part of them targeting his two daughters for more than nine years. At least seven of these “commissive role players” were secretly members of AFCCNET.ORG colluding in “judicial,” “legal” and “psychological” roles.

His daughters have different mothers who he believes were threatened into going along with it all and that is why they too have disappeared with his daughters for five years and three years respectively. This without any communication from them. Although the day-to-day location and happenings of the daughters has been kept from

him during that time due to the shadow dockets, he believes his two daughters are still alive, stalled for five years and three years respectively in the beginning stages of being taken and trafficked—this "stalling" happening because of his refusal to be "removed, silenced and eliminated."

As he has refused to be "removed, silenced and eliminated" he has been retaliated against by AFCCNET.ORG members and those that collude with them in more ways that indisputably shine a light on the darker forms of targeting, taking, trafficking and keeping it all hidden.

This includes that in December 2021 his oldest daughter was 12 and was "courtnapped" by being unlawfully relocated from Utah to North Carolina amid forgeries and other commissive and omissive terrors proliferated by AFCCNET.ORG members in Utah and North Carolina. The daughter is allegedly with mom and stepdad.

Nearly two years later in the summer of 2023 his youngest daughter was "courtnapped" amid forgeries, false charges and even a fabricated psychological evaluation targeting him by

AFCCNET.ORG members in Utah. The daughter is allegedly with mom.

When all this failed to eliminate him and he refused to be silenced, the AFCCNET.ORG members and those that collude with them retaliated against him with more shadow dockets and by attempting to fatally swat him three times in four weeks. This happened during February and March 2024.

During those four weeks, AFCCNET.ORG members and those that collude with them also colluded with corrupt parts of the West Valley City Police Department and others to unlawfully arrest him twice in eight days as part of covering up the fatal swatting attempts.

These two swatting attempts and the unlawful arrests that followed occurred after they baited him to Salt Lake City's Matheson Courthouse out of their jurisdiction. The first arrest occurred after the West Valley City "police officers" stalked him there for five hours before deceptively trying to fear monger him into going into a closed courtroom with them —and those willing to see know exactly what

happens when someone ends up alone in a room with West Valley City “police officers.”

In the days after that failed to silence him, they then created more shadow dockets as part of the second swatting attempt and resulting second arrest as the cover up after that second swatting attempt failed. Then after the second unlawful arrest, they unlawfully imprisoned him at the Salt Lake County Jail and left him there with colluding jailers including the Salt Lake County Sheriff under those shadow dockets.

During that time, as days turned into weeks, they had a contractor posing as a “public defender” try to force him to sign papers that they said would send him to prison “for three years.” They attempted to do this without ever telling him specifically why they were holding him hostage in jail in the first place, only giving him vague, nonsensical explanations with no consistent dates, no investigation, no evidence, no lawful trial, no lawful hearing and no option for bail.

This went on for two months and eight days but he continued to refuse to sign those papers. There are many reasons for this. This while he also

shared more and more information with the contractor about how “the contractor” was being “deceived and scapegoated” into doing what “the contractor” was doing.

Eventually, they released him and went right back to the cycle of more shadow dockets. This included a fabricated protective order and trying to eliminate him in other terrorizing ways
day-after-day, week-after-week,
month-after-month.

Body camera footage of the unlawful arrest at Salt Lake City’s Matheson Courthouse while he remained “patient and polite” while being unlawfully arrested reveals insight into the possible lack of sobriety of the West Valley City “police officers” who stalked him for five hours before unlawfully arresting him. Not only did they not know how to exit the Matheson Courthouse with him alive, one can be heard giggling to himself over and over again as he drives alone into the wrong exit at the Matheson Courthouse with the West Valley City “detective” also following down the wrong exit in his own vehicle.

Prior to this this father had never been arrested before, worked a career that required regular background checks and his daughters happily lived with him half the time or more. He was a regular, welcome presence in their different schools and together as father and daughters they were a regular presence in their neighborhood and their community. He suggests that all this may have been part of what made his daughters targets.

He suggests that as a targeted parent he has managed to survive this long because AFCCNET.ORG members and those they collude with continue to fight among themselves in many ways and that infighting caused them to continue to make more mistakes in attempting to remove, silence and fatally eliminate him and that combined with other developments within deceptive parts of the State of Utah over the past 26 years contributed to them losing the momentum to fatally eliminate him.

“There are more parts of this story that go far beyond Utah during that election year of 2024 for governor of Utah and that election year for president of the United States and since” he says.

When it comes to that hidden list of 12,000 - 15,000 children's names, he suggests that as part of the deceptive, duped or radicalized Utah state authorities using deceptive, duped or radicalized AFCCNET.ORG members to steal as much as possible from "Title IV-E Foster Care" when "the list" is transparently vetted by a transparent federal authority it can be expected that there will be a huge number of entirely fake children's names on "the list."

He also suggests that it can also be expected that a huge number of targeted children on the list as well as one or both of each targeted child's targeted parents won't be able to be located. "The nation needs to prepare themselves for that and proceed in lawful, measured ways that should involve the U.S. Military" he says. "If President Trump won't do it then I will run for president 2028, win and order it myself."

He also suggests that because the stolen money is so big and because they have everything to lose if they are caught, it should be expected that thousands of the most radicalized "role players" in Utah, across the U.S.A. and beyond will continue to

stop at nothing to keep it all hidden. This includes the scapegoated congressional level made up of members from Utah and other deceptive states.

This document and more can be found at www.linktree.com/courtgate.

OFF THE RECORD SUMMARY FOR THE UTAH OFFICE OF THE FBI

It is clear that in Utah, former governor Gary Herbert was the catalyst that was first duped into stealing from Title IV-E through expanding the unvetted courtroom partnership with AFCCNET.ORG and that “Herbert and Co.” will continue as “scapegoats scapegoating scapegoats” to stop at nothing to keep all this hidden.

It is clear that this includes continuing to scapegoat the “Military Installation Development Fund” known as “Utah’s MIDA” in ways that are more revealing (and more embarrassing) for them.

This includes that Utah's current and previous "state auditors" (Tina Cannon and John Dougall) refused to acknowledge any money coming into the State of Utah from "Title IV-E" while they also ignored AFCCNET.ORG's hidden list of 12,000 - 15,000 children's names that was created to procure money from Title IV-E. Yet, while these counterintuitive events continue to play out, MIDA continues to be unable to explain where hundreds of millions of dollars used for a ski resort development and other "non military projects" actually came from. The most recent scapegoated use is for the highly controversial "Stratos" data center in northern Utah.

Because of this and more, it is clear that "Utah's MIDA" is just one of the many scapegoats being used to launder hundreds of millions of dollars stolen from Title IV-E on the backs of tens of thousands of fatally targeted Utah children without any regard for life.

Because of all this and more, scapegoated layers of the federal government are letting it happen.

Before “Herbert and Co.” embarrass themselves even further (unless they really are direct benefactors of children being sex trafficked and worse) perhaps “Herbert and Co.” should finally let me take them by the hand and walk them out of what they were duped into because there is a way to do that and that includes many billion dollar opportunities they haven’t thought of. *

Or…lets have the President of the United States of America lawfully suspend Utah’s statehood and order the U.S. Military to keep the peace in “Utah Territory” while the hidden list of 12,000 - 15,000 children’s names is transparently vetted and the U.S. Military rounds up hundreds of “bad guys” in Utah before doing the same in all 49 other states.

CLOSING

Although it is not the responsibility of the American public to know the depths of these horrors and why the darkest roots are connected to weaponized, scapegoated and baited layers within

the State of Utah, links to indisputable proof about "Courtgate" as well as more resources can be found by any American or anyone else around the globe at www.linktree.com/courtgate.
