

# Commission Info

## The Process:

Send me a message via SoFurry, FurAffinity, or Twitter. The accounts where you can contact me are below. Please come prepared with either a visual or written reference of the characters in your story. We will discuss the content you want added, and then I will send you a payment request via **PayPal**. (If you don't have PayPal, we can arrange something else.) For stories over 1000 words, I will write half the story first, then have you read it and suggest changes. Once you give me the green light to continue, I will finish the story and send it to you. I will post the commissions to my SoFurry and FurAffinity, but you can too as long as I'm credited properly.

## Prices: (2 cents per word with discounts!)

### **One scene, ~1000 words, (\$20)**

If you want to get straight to the good stuff without all that silly backstory, you can opt to pay for just a single scene. These commissions are for people who want to focus on something super specific without any padding around it! Good for those who want a taste of my writing before committing to something longer.

### **Beginning-Middle-End, ~2500 words, (5% off, \$47)**

This is a proper story, albeit rather short. Your story will include some scene setting before the nsfw part so we actually know our characters and what's at stake! (which is usually their precious virginity~). This package includes one spicy nsfw scene that'll leave you wanting more. When that's inevitably you, take a look at the next tier.

### **Multi-nsfw Scene Work, 5000 words+, (10% off)**

This package is for people who want a longer and more detailed work. This is similar to the stories I publish on SoFurry and FurAffinity. Think, *Sebastian's Library Adventure*, if you read that. There will be backstory, multiple nsfw scenes, and a sweet ending. Essentially, you're getting all the fixings. The price for this one scales depending on how many nsfw scenes you'd like included and how detailed you want the story to be, but here is a rough estimate with the 1¢ per word price.

- **2 nsfw scenes = ~5000 words = \$90**
- **3 nsfw scenes = ~7500 words = \$135**
- **4 nsfw scenes = ~10000 words = \$180**

Anything more than that and I start dipping into the unknown when it comes to porn. I've written longer pieces before, but they've all been sfw. If you want me to write something longer, we can talk about it and come up with a plan for how to conquer that task.
