GOOD LUCK!!!!

- 1. Read the text and decide whether the sentences (1-10) are true or false. (30 points)**

FACT FILE: Computers

Computers can do many things. They can do calculations, store information, and play music. We can also use them to write or play games. Let's learn a little about their history.

The first computers were very big—about the size of a room! People could not have them at home. Early computers mainly did simple maths, like a calculator. In the 1930s, Alan Turing had the idea of a computer that could be programmed to do different tasks. The first computer mouse was made of wood.

In 1958, Jack Kilby invented the microchip. Microchips are very small but can store a lot of information. They helped make computers smaller. In the 1970s, computers became cheaper and people started using them at home. In the 1980s, they became very popular, and many people bought them to play games.

In 1989, Tim Berners-Lee created the World Wide Web. This made it easier to organize information on the internet. Now people all over the world can find and share information online.

Today, we use smartphones to play games, send emails, and go online. In the past, a computer filled a whole room. Now, it can fit in your pocket!

1. Early computers were very small.f

True

False

2. The first computer mouse was made of wood. †

True

False

3. Alan Turing invented the microchip in 1958.f

True

False

4. Microchips are very big. f

True

False

5. Microchips can store lots of information. †

True

False

6. People started to buy computers to use at home in the 1980s.f

True

False

7. The World Wide Web was created in 1989. †

True

False

8. Tim Berners-Lee created the World Wide Web. †

True

False

9. Now people can only do simple maths calculation on a computer.f

True

False

10.Today, a computer can fit in your pocket.t

True

False

Exercise 2a Match the words to their meaning. (20 points)

1. can b	a. κάνω
2. Invent d	b. μπορώ
3. do a	c. πληροφορίες
4. maths f	d. εφευρίσκω
5. information c	e. χρησιμοποιώ
6. play music g	f. μαθηματικά
7. use e	g. παίζω μουσική
8. write j	h. παίζω παιχνίδια
9. play games h	i. μεγάλος
10. big i	j. έχω
11. have	k. γράφω
12. cheap	l. απλός
13. simple	m.φθηνός

Exercise 2b Write the comparative form of the adjectives. (20 points)

1. Sarah is _____ than Anna. (tall) taller
2. This car is _____ than that one. (fast) faster
3. My bag is _____ than yours. (heavy) heavier

4. Today is _____ than yesterday. (cold) colder
5. This test is _____ than the last one. (hard) harder
6. My brother is _____ than me. (strong) stronger
7. This movie is _____ than the other one. (interesting) more interesting
8. Her dress is _____ than mine. (beautiful) More beautiful
9. This road is _____ than that road. (long) longer
10. My phone is _____ than your phone. (expensive) more expensive

Exercise 3 (30 points)

You want to write an essay for the school newspaper with the title "Computers in our Life". Use the following questions to help you.

- How often do you use a computer?
- What do you do on the computer?
- Are computers useful? Why?
- Name one problem that computers can cause.

_____computers in our life

Computers are very important in our life. I use a computer every day

On the computer, I play games

Computers are useful because watch
videos_____

_____.

However, they can also cause problems. _____computers are bad for
eyes _____

_____.

In my opinion, computers are useful.. We should use them carefully.

Extra Help - Word Bank

every day – sometimes – do homework – play games – watch videos –
listen to music – talk to friends – learn – find information – useful –
interesting – too much time – bad for eyes – carefully
