

CHAMPS CLASSROOM MANAGEMENT

At Diboll ISD, we recognize that effective classroom management is crucial for fostering a positive learning environment. Our CHAMPS framework, integrated with Positive Behavioral Interventions and Supports (PBIS), is designed to empower both educators and students. This approach promotes engagement, respect, and accountability, ensuring that all students have the opportunity to thrive in a supportive and structured atmosphere. Together, CHAMPS and PBIS work to create a culture of excellence where every student feels valued and motivated to succeed.

By implementing the CHAMPS model, we strive to create an environment where all students feel safe, respected, and ready to learn. Join us in fostering a culture of excellence and support!
