

For the health of Athletes.

Hey, there Optimized Nutrition.

Your company name was brought up when I was working out at the gym the other day, I overheard some guys talking in the gym about how the creatine they bought from your store has given them more energy than ever before, since I was being a little nosey I wanted to check you guys out.

I love how you guys have grown a community of ambassadors to help motivate people around Canada to take better care of their health and fitness.

However, I've noticed some tactics implemented by other pages such as Vitamin Shoppe and bodybuilding.com. These methods have been tested and proven this approach to be very successful. I hope you found this helpful.

You guys seem very dedicated to ensuring people are taking in high-quality supplements that will maximize their health for the long term.

Your market would benefit from these handpicked supplements by experts and would benefit a broader audience in a healthier lifestyle.

I have more ideas that could help you drive more traffic through your email newsletter.

Here's an email that you can send out that will increase the number of clicks you get to your website

.

Your company could benefit from implementing these ideas and blow up the number of newsletter sign-ups you receive which will ultimately drive more traffic to your store.

If you guys believe this is the right approach to take. Reply with a yes and we can set up a call sometime next week.

Kind regards,

Max.
