

Photography Self-reflection - Megan Edlin

Macro- Rubric score 5

In the space below, identify your strengths as identified on the rubric. Which criteria do you feel as though you met or excelled in?

I think i fulfilled the assignment well with a pictures that invoke interest and keep everyone wondering what i will come up with next.

In this space, explain what criteria you think you could have done better in. What is NOT good about your photo(s)?

I think that my composition was was some what off for this assignment in one of my pictures.

Finally, what will you do differently in the future? What ideas or other directions might you take on future projects considering your experience with this one?

I really liked looking for subjects for this project because it forced me to slow down and see what will work.

Level	Quality Photography Rubric
-------	----------------------------

Mastered 5	• Subject matter is impactful / is the focal point • Applicable lighting • best possible contrast • cropping and appropriate editing (not over-edited) • correct exposure • clarity and crisp focus • uniqueness, creativity • composition - rule of thirds, • bending the rules, making it look intentional
4.5	Exhibits characteristics of both 4 and 5
4 Almost Mastered	● Explain what you could improve upon..
3.5 QW	● Explain why you chose your particular subject or process.
