Best Practices & Suggestions

- Bring everything you need (garbage bags, brushes, paint, cleaning supplies, etc.)
- Create a barrier with cones around your spot until it dries. Then, pick up your barrier later the same day.
- Paint is expensive. Ask family, neighbors, and family if they have any lying around that they aren't using.
- True-Value, Lowes, Home Depot, Menards, local hardware stores, etc., usually have paint in the clearance section of custom colors that people have returned which can be deeply discounted.
- Talk to friends about what colors they are using and then go in together on buying paint.
