

HIGH SCHOOL SPECIALTY PROGRAMS 101

As our students prepare to transition to high school we want them to be aware of all of the specialty programs available. All of these programs provide transportation if students are granted admission! Below you will find a quick guide to all programs for students entering 9th grade and their respective requirements. For more information about each program, please visit the following link:

<https://www.pgcps.org/about-pgcps/applications#high-school>

GPMS will be hosting a Parent Night session to complete applications on Monday, November 9, 2020.

Science & Technology
Oxon Hill High School

The PGCPs Science and Technology Program (S/T) is a rigorous four-year high school course of study that provides broad and intensive college-level academic experiences, with content and application focused on science, mathematics, pre-engineering and technology.
