

# Data in Real Life

## Just the graph

Ready-made and recent graphs of all varieties for quick access, daily or weekly practice analyzing and interpreting about current events and topics. No associated activity or lesson.

Education focused format:

- [What's Going on with This Graph?](#) from New York Times & American Statistical Association
- [Ms. Turner's Graph of the Week](#) from math teacher, Kelly Turner
- [Slow Reveal Graphs](#) curated by teacher, Jenna Laib

Designed for business and news:

- [Daily Data: Statista](#) a global data and business intelligence platform
- [NBC News: The Data Point](#) or [CNBC: Data Visualizations](#)
- [Charts for Latest BLS News Releases](#) from the US Bureau of Labor & Statistics

## A graph and guidance

Data, graphs, and some guidance for students to engage and interpret.

- [Data Puzzle Pieces](#) from UC Boulder CEEE
- [Data Biographies](#) from Concord Consortium
- [YouCubed Data Talks](#) from Stanford U.

## And more useful links to datasets and data activities
