

# Shadey Lady's Commission Guide and T.O.S

Last Updated: (07/07/2025)

Hello to any and all who have taken the time to read this document. Thank you for thinking or showing interest in my commissions and my work.

Below is a document that explains everything in detail about my art and how to work with me. All answers should be answered below, but you are more than welcome to contact me with any remaining inquiries.

## Sapphire Tier

Sapphire tier is your introductory tier. Closer to a sketch piece of work you will receive an art piece with a more loose line art but still detailed coloring with texture. Though lighting and background will not dramatically affect your piece.

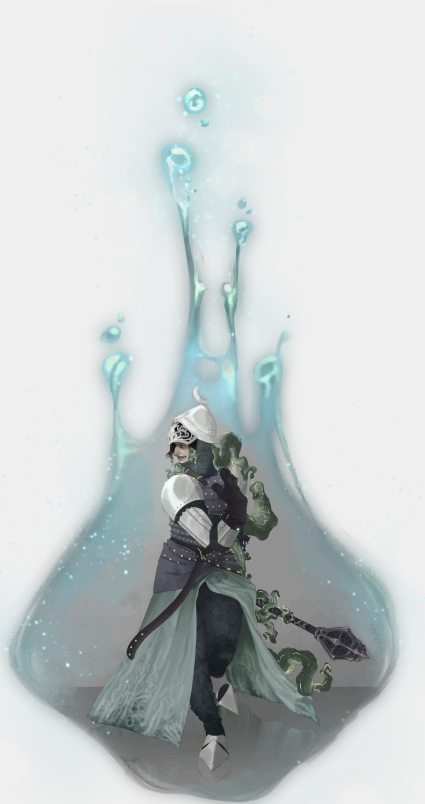

\* Color does not affect the price of the piece, if you would prefer a black and white piece it will be the same price.

## Emerald Tier

Emerald tier is the next step up from Sapphire. This tier will provide a looser form of line art like the Sapphire tier but will guarantee you more dynamic lighting to what you are feeling for the mood of your piece.

\* Color does not affect the price of the piece, if you would prefer a black and white piece it will be the same price.

### **Gold Tier**

Gold tier is your most dynamic option for commissions. Gold guarantees you a fully rendered painting with no line art. This tier will grant you dynamic lighting and more complex backgrounds.

\* Color does not affect the price of the piece, if you would prefer a black and white piece it will be the same price.

### **Backgrounds**

Simple backgrounds are always free of charge and are the commissioner's choice. You have three options for a simple background.

- **Transparent background**

- Your commission will be a transparent PNG with your choice of a white/colored border around your character or no border at all.

- **Flat Color**

- Simple as can be, your choice of background color. This can be the whole background or a shape for a more dynamic background.

- **Studio Room**

- Much like a studio-lit room, it will be a grayish-white background with a floor, simple but complete.

Dynamic backgrounds are a more complex painterly style of background. They will be either one/a few colors that compliment your piece.

Complex backgrounds are only available for the gold tier due to their complexity. These backgrounds are, as they say, complex. They will be dynamic with lighting and any form of background objects you would desire for the piece. Ex.) Stools, lamps, forestry, landscape, etc.

# Payment Policy and Work Guide

**\*I only work with PayPal. I will not accept money from any other method.\***

## PAYPAL INFORMATION

[christinajessicafletcher@gmail.com](mailto:christinajessicafletcher@gmail.com)

[paypal.me/shadeylady](https://paypal.me/shadeylady)

I reserve the right to refuse any commission for any reason. You do not have the right to know why I turned down your commission and if you argue with me on my choice that can lead to you being blocked and blacklisted.

Only I may give discounts for my own reasons, you may not ask for discounts or haggle the price. I'll let you know in private if you qualify for my secret discounts.

Tips are not required but appreciated, they will not affect your piece. Do not feel obligated to tip me, only do so if you are comfortable!

When the price is agreed on, payment will then be transferred at your discretion. I do not start work till the money is in my hands.

Once money has made its way over and we have confirmed I will work right away on your piece.

If you purchase a **Gold Tier** a 50/50 option will be available to you. You can pay half up front and then you will pay half to receive the finished piece.

Additional characters are an additional **75% charge** of the original character price.

I work a full-time 40hour a week schedule Monday-Friday so I have a shorter amount of work time for commissions compared to full-time artists. I do not make a living on commissions, this is something I do in my free time for fun money. Due to this being a fun thing for me to do and

better my skills, please understand that I won't be able to work every day on your piece, but I will make sure you get your piece done in a timely manner.

I pride myself in communication and you are welcome to ask questions, though do not spam message me every day to check in on your piece.

Depending on the tier you have chosen can and **will affect the delivery time**. Sapphire Tier is the fastest tier for me and can be completed within a week or two give or take depending. Gold Tier though will take longer depending on the scale of the piece and its complexity and whatever might happen in my external life.

While the piece is in the sketch phase you may have three revisions before **extra charges may apply. (20USD charge per new sketch after the first THREE sketch revisions.)**

I do send a lot of WIPs of the process, though they will be heavily watermarked for safety. You are welcome to save and keep these though and if you would like to make a collage of your piece as it is worked on and post the collage that is completely fine.

I only do refunds if **I am completely at fault** for something going wrong. If for some reason I am unable to finish the final product, only then will you receive a refund. I will give you a PSD. or CLIP file only if I am at fault for not finishing the project as compensation.

When in correspondence you will be required to reply to my emails/PMs. I will message you **three times** from the initial WIP or update the image before placing your project on **hold**. Once you do get back to me though I will happily start your piece back up. This is to make sure you are happy at every step in the process and we don't have to worry about wanting to go back in the process.

## Final Product

Once your piece is complete you will receive a full-sized version and a smaller more easily uploaded internet version. Both pieces will have a watermark but they will be small and in the corner. You may only post the smaller version online, **the HD is for your private viewing and your close circle, not the whole internet.**

- You **may** post my work on your page/other websites.
- You **may not** alter the watermark in any way (this includes photoshopping, warping, cropping, scratching out, or anything that will alter the piece so that others can not find their way to me.) When posting art you must have either a link or my user name in the description so that others can find their way back to me.\*
- You **may not** trace your commission and post the traced piece, even if you credit me.
  - If you choose to trace the piece for learning purposes, it must never be posted online and only kept private.
- You **may not** use my work for profit without my previous consent/or without a contract made so that I receive royalties for my work.\*
- You **may not** use my art for NFT-related work or scams.\*

**\*If I receive word of any of these *Do Nots*, I will proceed with court proceedings if needed and will blacklist you and all your accounts. You will be contacted first to try and figure out the best course of action.\***

I have all rights to use my work as I please which includes using it to make prints, art books, merch, etc.

- You **have every right** to tell me in advance not to use specific pieces of yours for-profit and even posting, though this will be discussed before posting so that everything is clear.

- Once it has been decided that I have the right to use your piece as I please for profit, posting, or both you can not come back and change your mind.

### **Requirements to Place an Order**

I require previous art, preferably a reference sheet but I am pretty lenient. I do not accept a written description only of any and all characters involved. I do not change my style to fit a character, I will make your character fit my style.

When PMing me with your interest I will review your request in which case we will then take our conversations to either Email, Discord, or FA PMs.

**Please Include:**

**Email/Discord Information:**

**PayPal Address/name:**

**NSFW/SFW:**

**All References and Previous Art Needed:**

**Summarize what you would like, or inform me if you would prefer artistic freedom:**

Once all this is included we can have a whole consultation to see what you are wanting in-depth and then when you are comfortable I will send the bill total over.

Do not feel that talking to me about a commission will lock you into one. If you have questions and just want to clear the air you are more than welcome to. I do not make a living on commissions and use this money more as fun money, so do not feel obligated to a commission after messaging me this information.

## **In Case of Death**

If you do plan on commissioning me please make sure someone else knows that you are doing so (they don't have to know the content, they just need your handle and how to contact me).

If something were to happen to you I would like to know that someone can contact me if something extenuating happens. If for some reason you pass on before your artwork is completed I will out of moral obligations finish your piece no matter what and won't place your piece on hold.

If I feel that it may be disrespectful for your timely passing I will hold off from posting your art till things have calmed down. Your secondary contact can also choose not to have the art posted out of respect, please let them know what you would prefer. You never know when your time will come, so please plan as much as you can no matter how healthy you are.

**\*By contacting me through any means and proceeding forward with a commission states that you have indeed read and fully understand this document. Going forward with a commission means you understand all my rules, regulations, and consequences for going against this document.\***

**Thank you to all who support me.**
