HOW MIGHT WE - help busy environmentalists to compost and reward them for their effort?

Features MVP:

- Compost Finder
- Implement map (use Google Maps API to find compost site)

- **Info around the compost facility: Hours of operation, steps or instructions for drop off**
- Map of Where the compost site is
- Food Scanner
- User Sign In? Name? Age Range? Location?
 - maybe Skip for purpose of hackathon
 - maybe google authentication
 - Save info
 - **Username and Password**
-
- Schedule a pickup
- Tracking Goal of the person per item
- A visual of your impact and how it's affecting the community - Next Steps
- Badges or coins for how often you compost?

Research we need to do:

- Does it cost money to compost, how much?
- Metrics for compost to methane
- Map locations for composting in Miami
- Basic info for getting into composting
