ART COMMISSION INFORMATION

(Note: for any reason in particular I am allowed to CANCEL any commission at any time, most of the time I will stop it because you asked to commission me a work that I will NOT do. Again, however, I am allowed to say no at any time, outside of when I've shared the finished product with you, for any reason).

Important Info:

- Please send me references to characters that you want me to draw, whether it'd be OCs, or official characters, I would highly appreciate written or shown details about the character.
- Tell me how many characters you want me to draw before I'm finished with the sketch process, because it will be a lot of work to add another character when I start the coloring process (whether it's colored or grayscale).
- If you plan to commission posters, flyers, album covers, or anything related to graphic design, tell me if you want me to draw the art or if you already have art made for the design project, this will be a factor in the final price.
- Please make sure your commission follows what I will and will not do (in the next section) because if it doesn't I will politely ask you to either change what you want or, if you refuse, I will stop all talks and blacklist you.
