

# Hi! Thanks for starting your magical journey with us and over 900 underprivileged kids!

## **Magic Poshan**

We are no strangers to the lockdown. Since its implementation, it has not only changed our habits, but also our lives. A lot of us, however, have the privilege of having access to nutritious meals despite the current situations. The 900 students of our Ramagondanahalli govt school, Immadihalli school and preschool, and Sidapura govt school also deserve a nutritious and balanced diet.

So, the three of us; Inika Kandwal, Tanya Gupta and Shruti Koundinya, are coming together in an attempt to meet the needs of these young fellow members of the community.

And we need your help! Please give our video and instagram handle a look and contact us if you're interested!

let's show our community that social distancing does not distance us from a healthy society :)

**200 Rupees** can help one child for an entire month!
