TaskSens3 Privacy Policy

Effective Date: August 9, 2025

This Privacy Policy describes how the **TaskSens3** Chrome extension ("we," "us," "our," or "the extension") collects, uses, and protects user information. By installing and using TaskSens3, you agree to the terms of this policy.

---

1. Information We Collect

To provide our functionalities, the TaskSens3 extension collects the following types of data:

- **Personally Identifiable Information:** We collect your **email address** when you use the Google Sign-In feature. This data is used exclusively to identify you as a user and to securely synchronize your tasks.
- **Website Content:** When you use the "Summarize current site" feature, the extension reads the text and data from the active webpage. This information is processed temporarily to generate a summary.

2. How We Use the Information

The information we collect is used for the following purposes:

- **Task Synchronization:** Your email address is used to link your tasks to your user account and securely store them in a database so they are available across all your devices.
- **AI Functionality:** Website content and task titles are sent to Google's AI API (Gemini) to generate summaries and context. This content is not stored on our servers.
- **Extension Improvement:** We may use non-identifiable usage data to understand how the extension is used and to improve its features and performance.

3. How We Protect Your Information

- **User Data:** Your tasks are stored securely in a database with strict security rules that prevent other users from accessing your information.
- **API Keys:** The Gemini API key we use for AI features is stored on a secure server (Render.com) and is never exposed in the extension's code running in your browser.
- **Transparency:** We are committed to not selling, trading, or otherwise transferring your personal information to third parties for advertising purposes.

4. Your Rights

If you wish to delete your data, you can easily do so by deleting the tasks directly within the extension. Removing the extension from your browser will stop any further information from

being collected. If you have any questions or concerns about our privacy policy, you may contact us via our support URL.

5. Changes to This Policy

We reserve the right to update this Privacy Policy at any time. We will notify you of any changes by posting the new policy on this page. You are encouraged to review this Privacy Policy periodically for updates.
