I bring a unique blend of creative thinking, technical skills, and user-focused design expertise to every project. My passion lies in creating groundbreaking products that provide practical solutions and improve the user experience.

WORK EXPERIENCE

Product Designer

Jan 2025 – Till Date

Wema Bank

- Led design initiatives across multiple cross-functional teams, contributing to over 5+ product launches that improved user engagement and streamlined key banking processes.
- Developed and implemented a scalable design system adopted across the bank's digital platforms, reducing design-to-development handoff time by 30% and ensuring visual consistency.
- Facilitated design thinking workshops for internal teams and external events, equipping 100+ participants with user-centered problem-solving skills and driving a culture of innovation within the organization.

Product Designer | Instructor

Jan 2024 – Dec 2024

PQP Academy

- Delivered comprehensive lessons on design principles, user research, wireframing, prototyping, and design tools like Figma to students.
- Facilitated hands-on projects, guiding students in creating products that align with industry standards.
- Provided feedback, mentorship, and support to help students develop strong design portfolios.

Youth Corper | Project Manager

Apr 2023 – Apr 2024

National Youth Service Corps

- Completed the mandatory one-year national youth service, fulfilling assigned duties at my Primary Place of Assignment
- Served as Project Manager for my CDS group, overseeing projects from planning, coordination, to execution.
- Led the team to organize and community-focused projects, ensuring timely delivery.

Product Designer | Lead Designer

Jan - Nov 2023

Dozzia Systems

- Worked closely with development teams, product managers, and educators to align design concepts with technical feasibility and educational objectives.
- Utilized prototyping tools to bring design concepts to life, enabling stakeholders to visualize and provide feedback on product features and interactions.
- Created comprehensive design specifications, wireframes, and design guidelines to ensure consistency and facilitate the development process.

Product Designer | Intern

Jul - Dec 2022

Swirller

- Collaborated with senior designers to incorporate user feedback into design iterations and improve product usability.
- Created wireframes and interactive prototypes to visualize and communicate design ideas effectively.
- Conducted user research by gathering feedback from teachers and students to inform design decisions and address pain points in the user experience.

Graphic Designer | Freelance

Jun 2020 - May 2022

Small and Medium-sized Enterprises

- Collaborated closely with Small and Medium-sized Enterprises (SMEs) to understand and align with their brand vision and objectives.
- Developed and executed creative design solutions tailored to the unique needs and target audiences of each SME client.
- Played a pivotal role in enhancing brand identity and recognition, resulting in increased customer engagement and brand loyalty for SME partners.

EDUCATION

Bachelor's Degree in Sciences (Plant Biology)

2018-2022

University of Ilorin, Kwara State.

CERTIFICATION

Product Design (UI/UX)

2022
