SKILLS

Programming language: C, JavaScript, Python, TypeScript

Front-end: HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind, Responsive Design, UI/UX Principles

Back-end: Node.js, Express.js, JavaScript, RESTful APIs, Authentication & Authorisation (JWT)

Database: MongoDB, PostgreSQL, Vector, and Graph Databases

Tools: Git, GitHub, VS Code, Vercel, Docker, LangChain, LangGraph, LLMs APIs, AWS(basics)

PROJECT

[HireMentis](#) – AI-Powered Interview Preparation Platform

- Designed and developed a SaaS platform to help job seekers prepare for interviews through AI-driven mock interviews and job listings.
- Technology Stack:
Next.js + Firebase + Vapi(GPT4.1 + deepgram + ElevenLabs) + Imagekit(for store user files)

[SpeakinResearch](#) - Find the expert mentors with AI powered Search

- Finding the right expert for your needs can be overwhelming with so many choices out there. Expert Finder simplifies this by using advanced technology to connect you with top talent quickly and reliably. Our platform combines a smooth user experience with AI-driven tools to deliver the best results.
- Technology Stack:
Next.js + Firebase + Automating tasks through the integration of multiple LLMs and AI Agents.

[Chhaya Persona](#) - Conversations with the Greatest Minds

- Chhaya Persona is a persona app powered by AI Chhaya Persona uses cutting-edge AI to bring famous figures to life, allowing for conversations and insights like never before, having 14+ persona currently.
- Technology Stack:
Next.js + Supabase + integration of multiple LLMs and AI Agents.

[CodeKshetra](#) - Master DSA with AI Power CodeKshetra(Working)

- Revolutionizing the way you learn and practice Data Structures & Algorithms with personalized AI-powered guidance. Get ready for the ultimate coding practice experience.
- Technology Stack:
Frontend: React.js + Tailwind CSS | Backend: Node.js + Express.js | Database: PostgreSQL | ORM: Prisma | Auth: JWT (Auth0 optional)

EXPERIENCE

Working in Full Stack Web development & AI Agents

- Full Stack Development:** Built full-stack apps using **Node.js**, **Express.js**, **React.js**, and **Next.js** with **SQL** and **NOSQL** Database.
- AI Agent Implementation:** Designed and integrated **AI agents** for task automation and intelligent interactions in the Web Apps.

EDUCATION

IIMT UNIVERSITY MEERUT

Bachelor of Technology - BTech | 2023 - 2027

HOBBIES

- Cricket
- listening to music
- Go for walks with friends
