✳️* ADDITIONAL NOTES *❏

- 👉 These are for digital commissions; A physical copy is not included.
 - 👉 If you'd like a specific color to be used for the background of a drawing (that does not have a detailed background), let me know!
 - 👉 Final products are sent however the buyer prefers—usually either via Toyhou.se, email, or a Sta.sh link.
 - 👉 Two payment options are provided; 50% upfront upon being sent the initial sketch and 50% after being sent a watermarked version of the end product, or the total price upfront upon seeing the sketch.
 - 👉 TAT varies depending on the type of commission and whether or not I have other commissions to work on. I try to complete my commissions within a week of making the first sketch. If I happen to be busy and the piece is delayed, feel free to ask for updates!
 - 👉 I will always update the commissioner with screenshots of the main parts of their commission—typically the lineart and flatcolor (unless flatcolor is as far as it goes).
 - 👉 Full refunds are only available until I begin the digital lineart. After I have already started the drawing further than the sketch, I can offer a partial refund, with the amount refunded depending on how far I got in the artwork. If a refund is sent, and I got a relatively moderate amount of the piece done, I will still send what I have.
 - 👉 I do not offer refunds on the basis of the buyer not liking the end result. I can make as many changes as the buyer likes to try and fix anything that looks off to them, but since the work is done by the time the drawing is finished, I won't refund anything.
- Hopefully this never is an issue!
