

# Kinkymation Commission Info

Hello, and thank you for the interest! Please read this very carefully before submitting your commission idea, this document outlines the way my commission system works and hopefully will help you with any doubts you might have if you're considering getting a commission from me!

**Objective:** this system might be a bit **unusual** but the point of making it this way is to get the **best possible ideas** and of course resulting pieces I can provide. I believe that when an artist is truly invested and **loves** the idea the resulting drawing will come out much better, for that reason I'm focusing on the **ideas** more than anything and that will be apparent.

**Method:** I will **not** be doing a “**first come first serve**” type of system, rather I'll open a document where you'll be able to **submit your idea**, and I'll **pick** from those submissions the **ideas** that I feel will result in the best pictures providing my set of skills.

**Artistic Freedom:** Artistic freedom is a **REQUIREMENT**, this is the **most important** part of this system for me. I do **not** want to **copy** a ref picture and just swap out the characters for the ones provided, I think in order to create the **best pictures** possible, having artistic freedom is of great importance. By artistic freedom I mean I am allowed to **change** details, angles, perspectives with the picture, of course the **core** of the idea will **remain** untouched is say for example you ask for a girl dancing on a field of flowers, that will not change but the angle or her expression or the way she's dancing or the flowers and lighting might change depending on if I believe it'll work **better** for the idea.

So you **HAVE to be ok** with the resulting piece not coming out exactly how the reference picture (if any) is showing or with **differences** in angles etc, if you are looking for something very specific and would not be happy with the picture not looking exactly like you had in mind, I believe I would not be the artist for you, it's ok!

This doesn't apply to character designs. I will obviously **not edit** those in any way, also if there's a specific detail you need because it's part of the character personality or their signature pose or if there's a reason for a specific detail you can **explain** it in the idea submission. I'm looking to make the best pieces I possibly can so stuff that's part of, or adds to the character's personality is important to consider.

Lastly it's very important that at the end of your ideas please put the phrase “**I am ok with artistic freedom**” or something to that effect when you submit it!

**Your Idea:** When I open I will make a **Google form** where you'll be able to submit your idea!**(Only 1 idea per person)** Please write the idea as best as you can. There's no particular character limit. References are quite useful but not exactly necessary just

remember that anything that's not available in the idea will be left to my **interpretation**. If you send an album with multiple references of your character please let me know which ref to take as the main ref, otherwise I will select the ref that's easier for me to understand. The submitted idea must be your final draft of the idea since i will be selecting based on them, they can't be edited once selected. The idea you sent me will be the final idea so make sure all the details are in order before sending it!

I will usually **post in advance** when the commission will open so you can get your idea ready!

**Pricing:** **Don't worry** about that, that's a topic for when the **idea is selected**. I want to give all ideas a **fair** shake and budgeting could end affecting the idea thus giving some of them more of an advantage. Therefore **I won't** really **say** much about prices here, I believe my prices are fair, but you're gonna have to **trust me** on this one!

**Do / Don't:** When it comes what kind of stuff I prefer working with, a look at my work should give a general idea of what I'm good at and while I'm generally open to most stuff there are some stuff that I would not work with , like:

- Children
- Bathroom Fetish
- Violence
- Really out there Fetish
- Futa
- Comics
- Animations

Despite being a NSFW artist for the most part **I can and will also work with SFW** pieces so those are a possibility

For proportion reasons **I have a limit on boob sizes, butt sizes and dick sizes**, please know that if a character's size is bigger than my limit it'll be drawn as the biggest size i work with, so make sure you're ok with that. I'll put the illustrative charts at the bottom of the document, and while I don't have a dick chart under normal circumstances it shouldn't get past the belly button.

**Posting:** Please know that I will post all the commissions I do, I won't tag or mention your name in the post **BUT I won't do private commissions**.

Once you got a slot, there's a **cooldown of 1 commission cycle**, meaning that next time I open on commission, please don't submit so other people can get a chance!

**The Form:** The actual form for submitting your idea is really simple but i'll put the fields here so you know what and how it'll come!

Name or Nickname \*

Texto de respuesta corta

Idea (Remember this is the final form of the idea) \*

Texto de respuesta larga

Idea extra (if you run out of space or there's special notes or if you wanna put refs link in another place)

Texto de respuesta larga

Contact Email (this is where the final image will be sent and where i'll write to communicate with you.) \*

Texto de respuesta corta

Secondary Contact info (Optional, another email address, twitter or discord handle in case you typo on the email or fail to see the email)

Texto de respuesta corta

**Thank you so much for your interest!**

**Examples:** <https://twitter.com/kinkymation>

1 - PETITE

2 - SMALL

3 - SMALL BUT PERKY

4 - PUSH TO USE

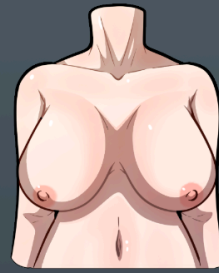

5 - ELEGANT

6 - NICE CLEAVAGE

7 - CAN'T CONTAIN

8 - BIG IRL

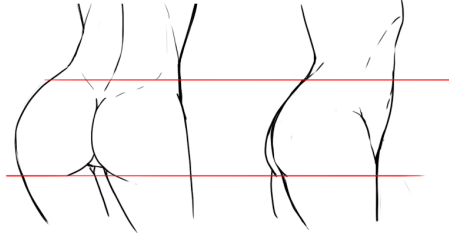

9 - ANIME BIG

10 - FANTASY

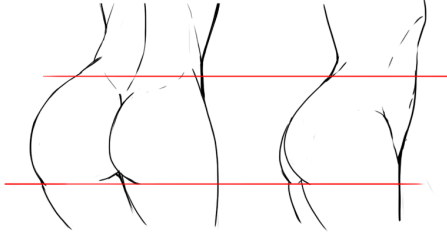

1 PETITE

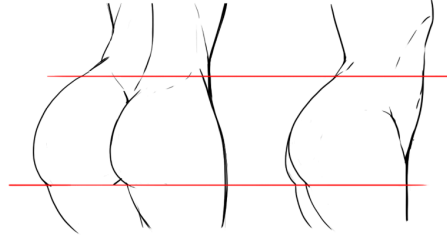

2 PERKY

3 SQUISHY

4 BREEDING HIPS

5 DUMP TRUCK
