

**Practice schedule for the 2026-2027 academic year by
Educational Program (EP)**

Educational practice from 24.05.2027 to 04.06.2027	
Year 1, 1st–2nd year of study (TVET-based), 1st year of study (HE-based) 2 credits	6B02101 – Design 6B02102 – Fashion Design 6B07103 – Automation and control 6B07104 – Robots and robototechnical systems 6B07105 – Technological machine and equipment 6B07106 – Refrigeration and air conditioning systems 6B07108 – Industrial robotics 6B07109 – Digital Energy
Educational practice from 24.05.2027 to 18.06.2027	
Year 1, 4 credits	6B06105 – Data Science
Educational practice from 24.05.2027 to 04.06.2027	
Year 2, 1st year of study (TVET-based), 1st year of study (HE-based) 2 credits	6B04101 – Economics 6B04102 – Management 6B04103 – State and local government 6B04105 – Accounting and Audit 6B04106 – Finance 6B05101 – Biotechnology 6B05201 – Ecology 6B07101 – Chemical technology of organic substances 6B07203 – Pharmaceutical production technology 6B06101 – Information Systems 6B07201 – Technology of Food Products 6B07202 – Crop processing technology (in the food industry) 6B07501 – Standardization, certification and metrology (of food branches) 6B08201 – Technology of production of Animal breeding products 6B11101 – Tourism 6B07209 – Technology of public and specialized food products 6B07107 – Machines and devices of light industry 6B07204 – Technology and Design of Light Industry Products 6B06104 – Artificial intelligence technologies
Educational practice from 05.10.2026 to 21.05.2027	
Year 2 1st year of study (TVET-based), 1st year of study (HE-based) 2 credits	6B11102 – Restaurant business and hotel business
Educational practice from 24.05.2027 to 11.06.2027	
Year 2 1st year of study (TVET-based), 1st year of study (HE-based) 3 credits	6B06102 – Computer systems and software engineering 6B06103 – Software engineering
Industrial (production) practice from 24.05.2027 to 11.06.2027	
Year 2, 1st year of study (TVET-based) 3 credits	6B02101 – Design 6B02102 – Fashion Design

Industrial (production) practice from 24.05.2027 to 25.06.2027	
Year 2, 1st year of study (TVET-based) 5 credits	6B07205 – Technology and Design of Textile Materials 6B07103 – Automation and control 6B07104 – Robots and robototechnical systems 6B07105 – Technological machine and equipment 6B07108 – Industrial robotics 6B07109 – Digital Energy
Industrial (production) practice from 24.05.2027 to 11.06.2027	
Year 3, 2nd year of study (TVET-based), 1st year of study (HE-based) 3 credits	6B02101 – Design
Industrial (production) practice from 15.03.2027 to 16.04.2027	
Year 3, 2nd year of study (TVET-based), 1st year of study (HE-based) 5 credits	6B08201 – Technology of production of Animal breeding products
Industrial (production) practice from 24.05.2027 to 25.06.2027	
Year 3, 2nd year of study (TVET-based), 1st year of study (HE-based) 5 credits	6B04101 – Economics 6B04102 – Management 6B04103 – State and local government 6B04105 – Accounting and Audit 6B04106 – Finance 6B05101 – Biotechnology 6B05201 – Ecology 6B06101 – Information Systems 6B06102 – Computer systems and software engineering 6B06103 – Software engineering 6B06104 – Artificial intelligence technologies 6B07101 – Chemical technology of organic substances 6B07203 – Pharmaceutical production technology 6B07103 – Automation and control 6B07104 – Robots and robototechnical systems 6B07108 – Industrial robotics 6B07105 – Technological machine and equipment 6B07106 – Refrigeration and air conditioning systems 6B07107 – Machines and devices of light industry 6B07201 – Technology of Food Products 6B07202 – Crop processing technology (in the food industry) 6B07209 – Technology of public and specialized food products 6B07204 – Technology and Design of Light Industry Products 6B07205 – Technology and Design of Textile Materials 6B07501 – Standardization, certification and metrology (of food branches) 6B11101 – Tourism 6B11102 – Restaurant business and hotel business
Pre-graduation (production) practice from 26.10.2026 to 27.11.2026	
Year 4, 3rd (4th) year of study (TVET-based),	6B08201 – Technology of production of Animal breeding products

2nd year of study (HE-based) 5 credits	
Industrial (production) practice from 24.05.2027 to 11.06.2027	
Year 4, 3rd year of study (TVET-based), 2nd year of study (HE-based) 3 credits	6B02101 – Design
Pre-graduation practice from 05.04.2027 to 30.04.2027	
Year 4, 3rd (4th) year of study (TVET-based), 2nd year of study (HE-based) 4 credits	6B08201 – Technology of production of Animal breeding products
Pre-graduation (production) practice from 08.03.2027 to 30.04.2027	
Year 4, 3rd (4th) year of study (TVET-based), 2nd year of study (HE-based) 8 credits	6B04101 – Economics 6B04102 – Management 6B04103 – State and local government 6B04105 – Accounting and Audit 6B04106 – Finance 6B05101 – Biotechnology 6B05201 – Ecology 6B06101 – Information Systems 6B06102 – Computer systems and software engineering 6B06103 – Software engineering 6B07101 – Chemical technology of organic substances 6B07103 – Automation and control 6B07104 – Robots and robototechnical systems 6B07105 – Technological machine and equipment 6B07106 – Refrigeration and air conditioning systems 6B07107 – Machines and devices of light industry 6B07201 – Technology of Food Products 6B07202 – Crop processing technology (in the food industry) 6B07204 – Technology and Design of Light Industry Products 6B07205 – Technology and Design of Textile Materials 6B07501 – Standardization, certification and metrology (of food branches) 6B11101 – Tourism 6B11102 – Restaurant business and hotel business
Pre-graduation (production) practice from 08.03.2027 to 30.04.2027	
Year 5, 4th year of study (TVET-based) 8 credits	6B02101 – Design
