Week #5

Monday: A park is a 300 meter by 400 meter rectangle. If we are using a scale of 1 cm = 50 meters, what are the cm dimensions? Explain/show your work.

Tuesday: Are the following scales equivalent? Explain. 1 inch to 200 feet and 1 inch to 2,400 inches

Wednesday: Alyssa's bedroom is 6 meters by 9 meters. What are her bedroom dimensions in centimeters? How do you know?

Thursday: What does the term "equivalent ratios" mean?

Friday: Are the following ratios equivalent? Explain. 10 to 4 and 30 to 12
