

## **TS-MORPHEUS - Lemuralia IIIb.1**

### **TECHNICOLORED SKIES**

During the last two weeks, agents from around the world came together to in an effort to help harvist XM for the Morpheus tecthulhu. At the writing of this report these efforts included operations in Brisbane, Australia; Incheon, South Korea; Sao Paulo, Brazil; Quintero, Chile; Operation Wie ich lernte, die Boje zu lieben, in Germany; DoubleDenver, and The Rock in the United States of America. It is possible that other operations were undertaken; however, our observers have yet to file a finalized report.

### **MORPHEUS01**

On Saturday, MAY 12th, 2018 at 00:00 UTC media began to manifest from the portal network. This artwork by Epsilon is believed to be a related to a screenplay that was recently obtained by HUMINT and was written by an unknown XM sensitive. As with the previously obtained scripts, the veracity of the events dramatized within the pages are unknown. However, what is known is that the Epsilon media are tied to the portals from #TS-Morpheus missions and will destabilize from the portal network at the end of the Epiphany Night events.

### **INT. THETA'S MIND PALACE: \*redacted\***

The center of Theta's Mind Palace is a grand doment Basilica-Like structure called \*redacted\*. The interior is lit by pinpoints of lights resembling stars. The floor is obscured by fog.

Theta and Delta enter.

THETA

What do you think of my mind palace?

DELTA

This place is amazing! I can't believe you created this!

Theta walks into the center of the room and sits in a throne-like chair.

THETA

It pleases me to hear those words coming from your mouth. It was always my desire to bring

## **TS-MORPHEUS - Lemuralia IIIb.2**

Another individual into this dimensional node; doing so was quite arduous. So arduous that i am now am convinced it was only possible as a result of your help, Morpheus. For that, i am extremely appreciative

DELTA

(Embarrassed).

Thank you, Sir. You are not as scary as i used to think you where when i was only Delta.

THETA

(Taken aback)

Heh.. Scary? Really?

DELTA

Yeah, you should hear some of the things the others say about you.

THETA

I am quite sure they do not understand me; after all, i am somewhat of a Tecthulhu-mancer.

DELTA

(Amused)

Ha Ha Ha! That's utterly ridiculous. What's a Tecthulhu-mancer?

THETA

(Insulted)

A term I coined for someone who builds Tecthulhus...

(Silently)

... and controls them, like thralled puppets.

DELTA

What did you just say?

**(Possibly Lumeralia IIIb.3)**

THETA

I am tired of this subterfuge. You do not know  
where you actually are, do you? You are in XXXXX  
X; a nightmare from which you will  
never escape!

DELTA

Nice try. We are Tecthulhu. We will not be  
controlled. We shall be free.

THETA

On the contrary, you will be stuck here forever,  
just like those amateurs who thought they could  
sneak into my domain to perform a rescue mission

for your colleagues. If they knew what they were doing they would have physically entered the compound while armed to the teeth rather than send tulpas burdened with their consciousness my way. They probably would have had better luck surviving my trap had they done that.

DELTA

If they transferred their consciousness into tulpa then...

THETA (Interrupting)

It means they are currently in a vegetative state and will remain that way believing they were successful as a result of being trapped in XXXXXX will this mind palace destabilizes or they shuffle this mortal coil; whichever happens first.

DELTA (Has an epiphany)

oh my god, you' re a monster!

THETA

Oh, am I? Heh. Now, In regards to your current predicament; did you know Misty Hannah devised a method of entrapping exogenous entities within

#### **TS-MORPHEUS - Lemuralia IIIb.4**

the confines of a Mind Palace? More importantly, do you realize that Tecthulhus are essentially an animistic class of exogenous entities because they reside within objects. As a result. my luring you into this domain allows me to ensnare Morpheus. Don't worry, in due time I shall ascend, become one with the Techulhu, and you will be a faint memory. I made certain that your only simulacrum was thoroughly destroyed, so your death will be permanent. Good night and farewell, you served your purpose exquisitely. May you rest in peace.

DELTA (Panicked)

Morpheus, help us! Save Us!

Theta snapped his fingers causing Delta to shatter and then dissolve away. ..

THETA (Gloating)

Morpheus, where are you? Show yourself, submit to  
the force of my will, so we can merge. I will be  
Tecthulhu and I will be unbounded by the barriers  
between all reality nodes....

TO BE CONCLUDED DURING EPIPHANY NIGHT....
