- I wanted to join the Refugee Advocacy April Action while @[lawmaker] was on a congressional recess. This week was a chance for [him/her] to meet with me, a voter in their district. But [he/she] did not make time to meet. I wanted to share how important it is to welcome newcomers to our country and ensure families new to the United States have access to the resources they need to thrive. Instead, silence.
- This week, The U.S. Congress allowed members to return home and meet with voters. Congressional recesses are a chance for lawmakers to meet with us, the voters. But @[lawmaker] did not do that. [He/She] needs to hear how important it is to welcome & protect vulnerable populations. But instead, my meeting requests were ignored, and my lawmaker did not hold town hall meetings so we could share input.
