

Adrian Doc

For the past months Adrian/@ifollowlinkartt has been grooming, doxxing and blackmailing several people, some being aged as low as 13, in private messages and on his discord server Adriancord/Minioncord. After many of his victims coming out, we compile here the screenshots of many of the instances this happened.

First, we start with the worst, his confirmed instances of Pedophilia, followed by other creepy messages in which we cannot identify the age of the receiver. Then we'll move onto instances of Blackmail, Doxxing and Manipulation where no sexually charged messages are sent and to finish off we'll give a compilation of various screenshots that show his psychopathic personality.

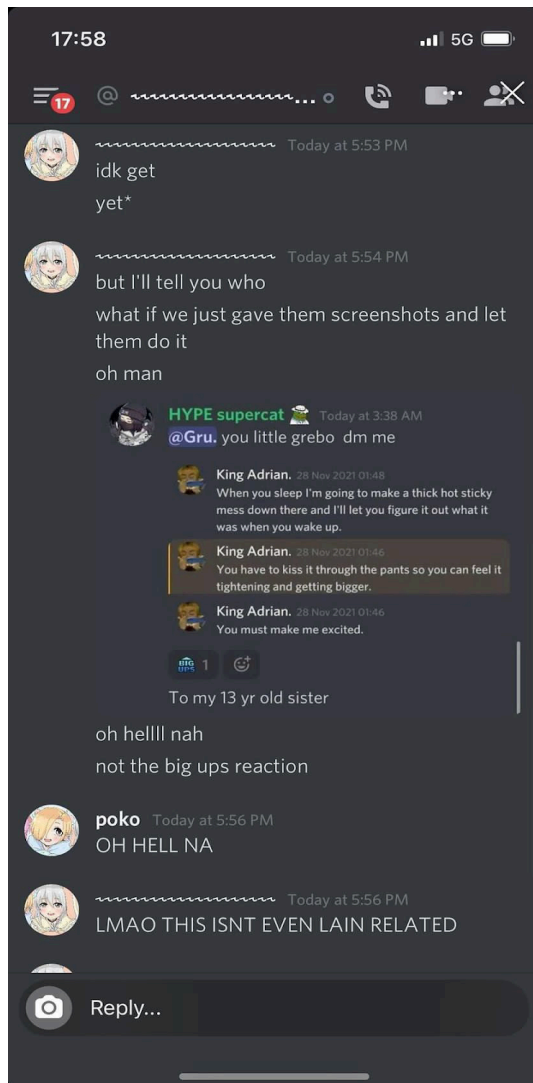

Scroll down from here

- 1) Pedophilia and Doxxing

In his server, Adriancord/Minioncord, Adrian finds young and impressionable girls, though sometimes boys as well, and manipulates them to have sexually charged conversations with him. If he gets any personal information or images he usually uses them to blackmail the victim and keep them stuck with him.

Adrian sending sexually explicit messages to a 13 year old girl

The screenshot within the screenshot reads as:

“When you sleep I’m going to make a thick hot sticky mess down there and I’ll let you figure out what it was when you wake up.”

“You have to kiss it through the pants so you can feel it tightening and getting bigger.”

“You must make me excited.”

gfwithkneepits sexual harassment, girl who's 16 and Adrian keeps as hostage with threats of facedoxxing. Adrian also owns sexually charged pictures of her which he may or may not use to threaten her as well.

Since she wanted out, she allegedly reached out to a friend to help her out but ended up ignoring it all and went back to them, so she's still with Adrian today.

- 3) Blackmail, Manipulation and more Doxxing

Apart from sending nasty messages to people, Adrian also manipulates people to get what he wants from them. Since most doxxing cases we have evidence for were already discussed in the sections prior to this one; only the ones missing will be posted here.

he just wants to scare you into getting what he wants, he's a toddler

howd you even get out of it
did you just block everyone

 
him and jorge tried to doxx me for leaving the server bc i gave adrian my number once when we were cool with each other so he could get pass the phone verification thing, looking up someone's number only comes back with their state and phone service tho and i pretty much just taunted him and encouraged him to doxx me and when he started sperging all angrily that i didn't give a shit and wasn't scared of him i used his messages to get his and jorge's accounts taken down
after that they just chilled out
anything they say can be used against them tbh
jorge is literally just adrian's little cocksucker and always wants to get validation from him, he has no personality at all LOL

background: [REDACTED] is 14, adrian is 18. name of the recipient was censored for the sake of themselves.

Yeah!

I appreciate you reaching out. I don't know who told you I was a victim and I'm not comfortable with anyone sharing that without my knowledge or consent. But i know it's too late to arrange that issue so I might as well just give in my two cents. Many people have been witness that he has been doing this since 2018 (but with all of this I suspect he's done stuff to other kids even before that). Back then he got more benefit of the doubt from people since he was 18 at the time and the age gaps were "not that bad"

He sexted two kids (Me being one of them unfortunately) and there was another kid who accused him of doing the same but no one believed them. I never got to know if those allegations were true but I'm going to assume they were.

He vanished off the community. And ~2 years later he tried coming back to stir trouble. He was mostly ignored. He came up to me and tried giving out a terrible apology. He tried manipulating me and treating me like I was delusional for not accepting it. I didn't fall for it. And all of this is mostly irrelevant, But in his attempt of putting excuses he told me he was diagnosed with bipolar which would coincide with his grandiose episodes shown in that doc (they're a symptom of the disorder) People with bipolar aren't inherently bad, so I think there's just... also something else deeply wrong with him. And I do not believe he has medication or treatment for his disorder (if it's even true that he has it) so tldr; a genuine looney
