### **Online Vedic astrology specialist in india:-**

Indian astrology, called Jyotish, is universal and timeless. Jyotish is one of the most time-tested and oldest systems of astrology in the world. In Western countries, it is called **Indian Vedic astrology**.

The Indian astrology describes the destiny and traits of an individual that are associated with the positions of the planets and the date, time and place of birth. Indian astrology considers the movement of two luminaries, namely the Sun and the Moon, five major planets (Mercury, Mars, Saturn, Venus and Jupiter) and the two nodals Rahu and Ketu.
