

Evonaire Neuroethics and Neuroprivacy Statement

Sanctuary for the Mind

At Evonaire, we honor the mind and spirit as sacred ground. We believe that every person has an unbreakable right to cognitive freedom, emotional autonomy, and the privacy of their inner world.

Our Commitments

1. Neuroethics at Our Core

We place neuroethics at the foundation of everything we build. Our platform is designed to respect every individual's boundaries, history, and agency. We are committed to creating a space where all forms of neural and emotional expression are protected and honored.

2. Cognitive Privacy is Non-Negotiable

Your thoughts, feelings, and intentions are yours alone. Evonaire pledges never to analyze, extract, or use your neural or emotional data without your informed and enthusiastic consent. We will always give you clear, accessible choices about what you share and how it is used.

3. Protection by Design

We are building tools that place privacy and consent in your hands. Our "NeuroProtected" feature allows you to shield your offerings and participation from any unwanted analysis or AI-driven inference. All voice and emotional data are treated as sensitive and sacred, protected by the highest available legal and technical standards.

4. Evolving Safeguards

As technology and regulation advance, so will our protections. We actively monitor developments in neurotechnology, AI, and global privacy laws to ensure that our safeguards remain at the leading edge. We invite creators, careworkers, and members to help us refine these protections as new needs arise.

5. Community Wisdom and Co-Creation

Neuroethics and neuroprivacy at Evonaire are living practices, not just policies. We welcome feedback, challenge, and partnership from experts, members, and all who hold these values dear. Together, we shape a sanctuary where the mind and soul are free, respected, and never exploited.

A Call to Sanctuary

Evonaire is more than a platform. It is a sanctuary for creators, seekers, and guardians who value freedom of mind, consent in connection, and the sacred right to privacy. We invite you to join us in building a future where the boundaries of your inner life are honored and held with care.

This is our neuroethics and neuroprivacy statement. This is EVON.

With care and resolve,
The Evonaire Team
