

# EVONAIRE INC. — CONFIDENTIALITY-BOUND PRIVACY NOTICE & DATA PROTECTION STANDARD (v1.0)

**Classification:** Confidential

**Scope:** Global

**Applies To:** All users, systems, contractors, AI tools, integrations, and third-party services interacting with Evonaire Inc.

---

## 1. CONFIDENTIALITY DESIGNATION

All interactions, communications, data exchanges, and system engagements within Evonaire Inc. environments are designated as:

### **CONFIDENTIAL — PROTECTED BY LAW AND SYSTEM ENFORCEMENT**

This includes but is not limited to:

- Text, voice, and interaction data
- Emotional expressions and non-expressions
- Metadata, behavioral patterns, and usage signals
- Identity, likeness, voice, and presence
- Environmental and contextual inputs

Unauthorized access, use, retention, inference, replication, or distribution is strictly prohibited and may result in civil and criminal liability.

---

## 2. CORE PRIVACY PRINCIPLES (NON-NEGOTIABLE)

Evonaire Inc. operates under the following enforced standards:

- **Consent-First Operation**  
No data is collected, processed, or used without explicit, informed, and revocable consent.
- **Non-Inference Doctrine**  
Emotional states, thoughts, intentions, or internal experiences are never inferred, predicted, classified, or scored.
- **Data Minimization**  
Only the minimum data required for a specific, user-approved function is processed.

- **Purpose Limitation**

Data is used solely for the purpose explicitly consented to by the user. No secondary use is permitted.

- **Zero Unauthorized Training**

User data is not used to train AI systems unless explicitly opted in at a granular level.

---

### **3. CONFIDENTIAL DATA HANDLING**

All data is treated as **Protected Emotional and Cognitive Material** and is subject to:

- Encryption at rest and in transit
- Role-Based Access Control (RBAC)
- Strict access logging and audit trails
- Redaction and minimization protocols
- Immediate revocation upon user request

No employee, contractor, or system may access data outside of explicitly authorized pathways.

---

### **4. RETENTION & DELETION POLICY**

Evonaire enforces:

- **Ephemeral-by-default data handling**
- **User-controlled retention windows**
- **Immediate deletion upon request**
- **No passive retention beyond operational necessity**

All deletions are:

- Logged
  - Verifiable
  - Irreversible within system constraints
- 

### **5. PROHIBITED ACTIONS**

The following are strictly prohibited across all Evonaire systems and partners:

- Emotional inference or psychological profiling
- Behavioral prediction or manipulation
- Voice replication or likeness simulation
- Unauthorized data extraction or scraping
- Surveillance, tracking, or hidden monitoring
- Use of data for advertising or targeting
- Any attempt to bypass consent systems

Violations trigger:

- Immediate access revocation
  - Evidence preservation (ClaimChain)
  - Legal escalation
- 

## 6. AI SYSTEM CONSTRAINTS

All AI systems used or integrated (including but not limited to OpenAI, Anthropic, Google, Microsoft, xAI, etc.) must comply with:

- **Non-ingestion of user data without consent**
- **No training on confidential interactions**
- **No emotional or cognitive inference**
- **No persistence beyond defined scope**
- **Mirror-only interaction (assistive, not authoritative)**

AI systems are tools. They do not own, retain, or derive rights from user data.

---

## 7. USER RIGHTS (ENFORCED)

Users maintain full sovereignty over their data, including:

- Right to access
- Right to delete
- Right to revoke consent at any time
- Right to restrict processing
- Right to audit access logs
- Right to non-inference and non-profiling

No system may override these rights.

---

## 8. SECURITY & ENFORCEMENT LAYER

Evonaire implements:

- **MirrorShield™** — automatic isolation and nullification of violations
- **ClaimChain™** — cryptographic evidence logging of all access and actions
- **NeuroPrivacy Framework** — protection of cognitive and emotional domains
- **Anti-reverse engineering protections**
- **Tamper detection and system integrity monitoring**

All violations are:

- Contained
  - Logged
  - Reviewable
  - Legally actionable
- 

## 9. THIRD-PARTY & CONTRACTOR COMPLIANCE

All third parties (including platforms such as OpenAI, Anthropic, Upwork, etc.) must:

- Adhere to Evonaire confidentiality standards
- Operate under binding contractual obligations
- Avoid independent data retention or reuse
- Submit to audit and compliance verification

Failure to comply results in:

- Immediate termination of access
  - Legal enforcement actions
- 

## 10. NON-TRANSFERABILITY OF DATA RIGHTS

User data:

- Is not sold
- Is not licensed without explicit consent
- Is not transferred across systems without authorization

All rights remain with the user.

---

## 11. GLOBAL LEGAL ALIGNMENT

This notice aligns with and exceeds:

- GDPR (EU)
- CCPA/CPRA (California)
- India IT & Data Protection frameworks
- OECD AI Principles
- Chile Neurorights Law (cognitive liberty, mental privacy)

Where conflicts arise, **the highest standard of protection applies.**

---

## 12. ENFORCEMENT & LIABILITY

Any breach of this confidentiality notice may result in:

- Civil liability
- Criminal prosecution
- Contract termination
- Regulatory reporting

Evonaire reserves the right to pursue full legal remedies.

---

## 13. ACKNOWLEDGMENT

By interacting with Evonaire systems, all parties acknowledge:

- This confidentiality designation
  - The binding nature of these protections
  - The prohibition of unauthorized use
- 

## FINAL NOTE

This is not a passive privacy policy.

This is an **active confidentiality and protection system**, enforced through:

- Technical architecture
- Legal frameworks
- Real-time monitoring and containment

# Evonaire Neuroethics and Neuroprivacy Statement

*Sanctuary for the Mind*

At Evonaire, we honor the mind and spirit as sacred ground. We believe that every person has an unbreakable right to cognitive freedom, emotional autonomy, and the privacy of their inner world.

## **Our Commitments**

### 1. Neuroethics at Our Core

We place neuroethics at the foundation of everything we build. Our platform is designed to respect every individual's boundaries, history, and agency. We are committed to creating a space where all forms of neural and emotional expression are protected and honored.

### 2. Cognitive Privacy is Non-Negotiable

Your thoughts, feelings, and intentions are yours alone. Evonaire pledges never to analyze, extract, or use your neural or emotional data without your informed and enthusiastic consent. We will always give you clear, accessible choices about what you share and how it is used.

### 3. Protection by Design

We are building tools that place privacy and consent in your hands. Our "NeuroProtected" feature allows you to shield your offerings and participation from any unwanted analysis or AI-driven inference. All voice and emotional data are treated as sensitive and sacred, protected by the highest available legal and technical standards.

#### 4. Evolving Safeguards

As technology and regulation advance, so will our protections. We actively monitor developments in neurotechnology, AI, and global privacy laws to ensure that our safeguards remain at the leading edge. We invite creators, careworkers, and members to help us refine these protections as new needs arise.

#### 5. Community Wisdom and Co-Creation

Neuroethics and neuroprivacy at Evonaire are living practices, not just policies. We welcome feedback, challenge, and partnership from experts, members, and all who hold these values dear. Together, we shape a sanctuary where the mind and soul are free, respected, and never exploited.

### *A Call to Sanctuary*

Evonaire is more than a platform. It is a sanctuary for creators, seekers, and guardians who value freedom of mind, consent in connection, and the sacred right to privacy. We invite you to join us in building a future where the boundaries of your inner life are honored and held with care.

This is our neuroethics and neuroprivacy statement. This is EVON.

With care and resolve,  
The Evonaire Team
