Four Audio CD and the Bonus VCD Set:

Experience a complete in-depth tour of Joseph’s Exquisite Performance™ Coaching model on this four audio CD set.

- CD-1 – “Exploring The Trajectory of INTENT™” – the essential model that Joseph uses to build his work with clients

- CD-2 – “Moving Beyond the Past” – working with “What’s Working” in the present to build an extraordinary future possibility
- CD-3 – “Creating a Profound Singularity” – collapsing “Desire” and “Expectation” into a singularity that’s precisely matched to the client
- CD-4 – “Hurdling the Event Horizon” – using the concept of “Teleological Modeling” in building a successful strategies and processes, including developing the resources necessary to producing specific manifest outcomes in a chaotic enviroment/context where the client typically operates

Joseph will first take you on a complete tour of his proprietary meta-model – “The Trajectory of INTENT” which establishes the “future-memory” that you’ll be building with your clients (or for yourself) . The entire Exquisite Performance™ Coaching process is built within and around this model. The critical distinction of precisely how Joseph begins from the future and works backward to the outcome is so powerful that when you hear it you’ll wonder why anyone would consider doing coaching in any other way!

You’ll also learn about “Teleological Modeling” – learning how to establish a fully formed outcome in the future that is both unlimited and untainted by any historical reference. Joseph will also explain exactly how to work with “Event Horizons” instead of being dependent upon building clumsy and imprecise steps to building an outcome position that’s likely to change because you’re working in an unpredictable, chaotic environment/context

Next, Joseph will meticulously take you through each of the steps on the Exquisite Performance™ Coaching model. You’ll both experience and learn how to apply the Exquisite Performance™ Coaching process as Joseph takes you on a thrilling journey through the complete model ...

Take a look at just some of the material that Joseph will be covering in depth regarding the Exquisite Performance™ process:

Four Audio CD Set:

- Exploring the proprietary Trajectory of INTENT™ model designed by Joseph
- Master the concepts of Teleological Modeling and working with Event Horizons
- Developing exquisite skills in calibration, tracking and adumbration when working with clients.
- Reading the client’s non-verbal messages in regard to significantly enhancing the coaching process.
- Working with clients somatically and teaching them how to embody their experience
- Teaching your clients how to operate in a situated context and how to extract the relevant information.

- Identifying the importance of Environment/Context on the coaching process.
- Recognizing the movement of Information/Data from the Environment/Context into the client's "frame of Consideration."
- Working with the client inside the frame of Consideration to identify Desire and Expectation.
- Working with and building a powerful T.O.T.E. model to collapse Desire & Expectation into a "Singularity."
- Moving from the Singularity established with the client to building a Process.
- Adding in Resources to the Process to insure a successful Outcome/Result.

Using this approach you'll accomplish a significant milestone extremely early on in the coaching process, rather than building a dependency on 'predictability', you'll be building a comfort with 'unpredictability' and the confidence that can only come from knowing that regardless of what comes up the outcome will remain on target.
