

One Collection to Rule Them All...

This is it, ladies and gentlemen. The single most complete collection up for sale. I have lovingly curated this collection over the past few years, making many new friends along the way. But I think the time has come to hang it up, at least collection-wise. I hate to part with it, but I want it to go to someone who will continue playing the game.

So, what does this collection include? I'm glad you asked!

Everything*. That's right: everything. A full playset of every single card ever printed. Yes. Every. Single. Card. This mostly means 3 copies of Desperado, 3 copies of Faust, 3 copies of any card you'd want to include in a deck. Some cards allow more copies in a deck. For instance, Spy Camera allows up to 6 in a deck. Guess what: you get 6 copies of Spy Camera!

And you don't just get a full playset of every card. You also get alt arts of many of the cards, including some IDs!** No, I don't have Eli. Sorry fam.

You also get - I know, how can there be more?! - a full set (maybe even a set and a half?) of Team Covenant Tokens. And an exclusive set of gold 1-credit tokens from the last Worlds Championship held by FFG.

Now, the bad news... I'm asking \$1,600 for this collection. I know, I know. That's a lot. I get that. Part of me doesn't want to sell this, but the practical part of me realizes that I don't even use this stuff. Therefore, I have priced it thusly. True, the price is on the high side, but I also think it's fair considering not just the completeness of the content but also the fact it comes pre-sorted and in premium Dragon Shield sleeves. Blue for Runner, Black for Corp. You have everything you'll need to crush the competition with this one purchase.

If you are interested, I would be more than willing to answer any and all questions you have. Hit me up here, or on Discord. My username is: Charles (Into the Unknown)#4314.

Please message me to confirm alt arts. Honestly it's too many to list. If you are looking for one in particular, it'd be easier for me to look for the ones you're really hunting for. But I probably have it. I've tried to list the ones I **DON'T have above, but I could've missed one.
