I focused in on a light-skinned boy with a long head and small eyes.	19	The author's POV here is first person because the book says "I" frequently throughout the story. and whenever that appears in a book it means the the story is in first person. It is important to the story because it shows what the author is seeing and also what he experiences.	POV

You have not yet grappled with your own myths and narratives and discovered the plunder everywhere around us.	21	Plunder means falling to the bottom fastly or sinking rapidly. It could also mean that you made something terrible. The word plunder has kind of a negative feeling because It just sounds like a negative way of saying downfall or falling to the ground.	connotation

Illuminate what we ostensibly are not, illuminate the dream of being white, of being a man.	60	This makes me think that the narrator experienced racism because the tone sounds angry and like someones yelling. It also says, "illuminates the dream of being white" which means he must have experienced very harsh comments and also had been treated poorly.	inference

Your aunt Chana lent me another 200 dollars; I burned it all on a scam bartending school.	88	The word burned has a negative tone because it reminds me of like a burning building crashing down and it impacts me because it makes the word spending feel much more powerful and make it seem like its a deeper meaning.	Words matter/tone

I delivered food for a small deli in Park Slope. In New York, everyone wanted to know your occupation. I told people that I was "trying to be a writer."	89	I feel like the setting is like middle of New York because of how everyone wanted to know the occupation of the narrator. I can also infer that Park Slope could also be in New York because of how he said his occupation and then jumped to New York. It impacts the story because of the way the story goes through different cultures. In some parts of the book it will be set in less safe places where people struggle. In this setting you can assume that he's in a richer part of town because of their asking.	setting
